Maximum capabilities shown are for properly equipped vehicles with required equipment and a 150-lb. driver. Weight of additional options, equipment, passengers and cargo must be deducted from this weight. For additional information, see your Ford Dealer. *Conventional/Gooseneck Towing Notes:* This information also applies to models with Pickup box delete option (66D). Trailer tongue load weight should be 10% of total loaded trailer weight. Make sure that the vehicle payload (reduced by option weight) will accommodate trailer tongue load weight and the weight of passengers and cargo added to the towing vehicle. These ratings can be found on the vehicle’s Safety Compliance Certification Label.

**5th-Wheel Towing Notes:** This information also applies to models with pickup box delete option (66D). Trailer king pin load weight should be 15% of total loaded trailer weight. The addition of trailer king pin load weight, and the weight of passengers and cargo, must not cause vehicle weights to exceed the rear GAWR (Gross Axle Weight Rating) or GVWR (Gross Vehicle Weight Rating). These ratings can be found on the vehicle’s Safety Compliance Certification Label.
