

2022 FORD F-150® LIGHTNING® LIT GRILLE EMBLEM

BY: Ford Research & Advanced
Engineering

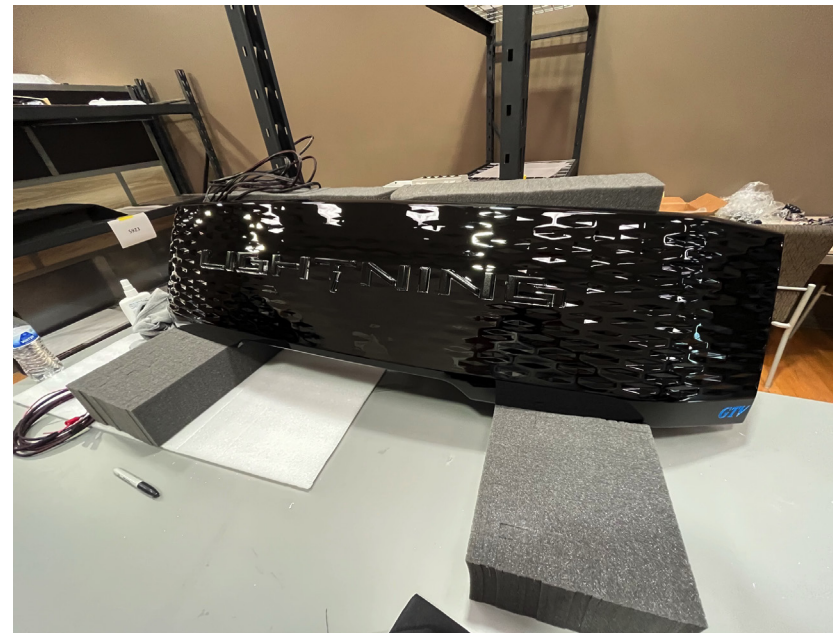

Technology Overview

The Tjin Edition Ford F-150 Lightning features a high gloss black grille panel with individual lit lettering with RGB-W LED lighting developed for an array of color selections. The lit lettering was design to appear as crystal finish during the day and illuminate multiple color offerings when powered.

“LIGHTNING” Lettering offers distinctive branding of GTV signature badging and offers a customized look for the F150 EV model.

The Tjin Edition F150 also features the X3 detachable solar battery pack generator equipped to power the LIGHTNING emblem.

The X3 power station can jump gas powered cars.
X3 Power station can contribute to 1008-watt hours all charged by solar panels. The power station can easily be detached from the tailgate area and be used to power accessory devices such as power tools, laptops, electric grills, cell phones, etc.
It is equipped with three 12V power plugs and multiple USB ports.

All of the vehicles shown have been modified by independent vehicle modifiers for SEMA. They are for demonstration purposes only and are not available for sale by Ford. Display of these vehicles is not intended to, nor does it constitute an endorsement of the vehicle modifiers, vehicle modifications, or use of the vehicles by Ford. Ford has not evaluated these modified vehicles. Vehicle owners and modifiers should consult their Ford's owner's manual before modifying vehicles and for proper usage. Vehicles that are not street legal or certified under FMVSS and safety and emission regulations are not intended or certified for use on public roads.
