

'76 FORD BRONCO

Bronco with optional wheel covers

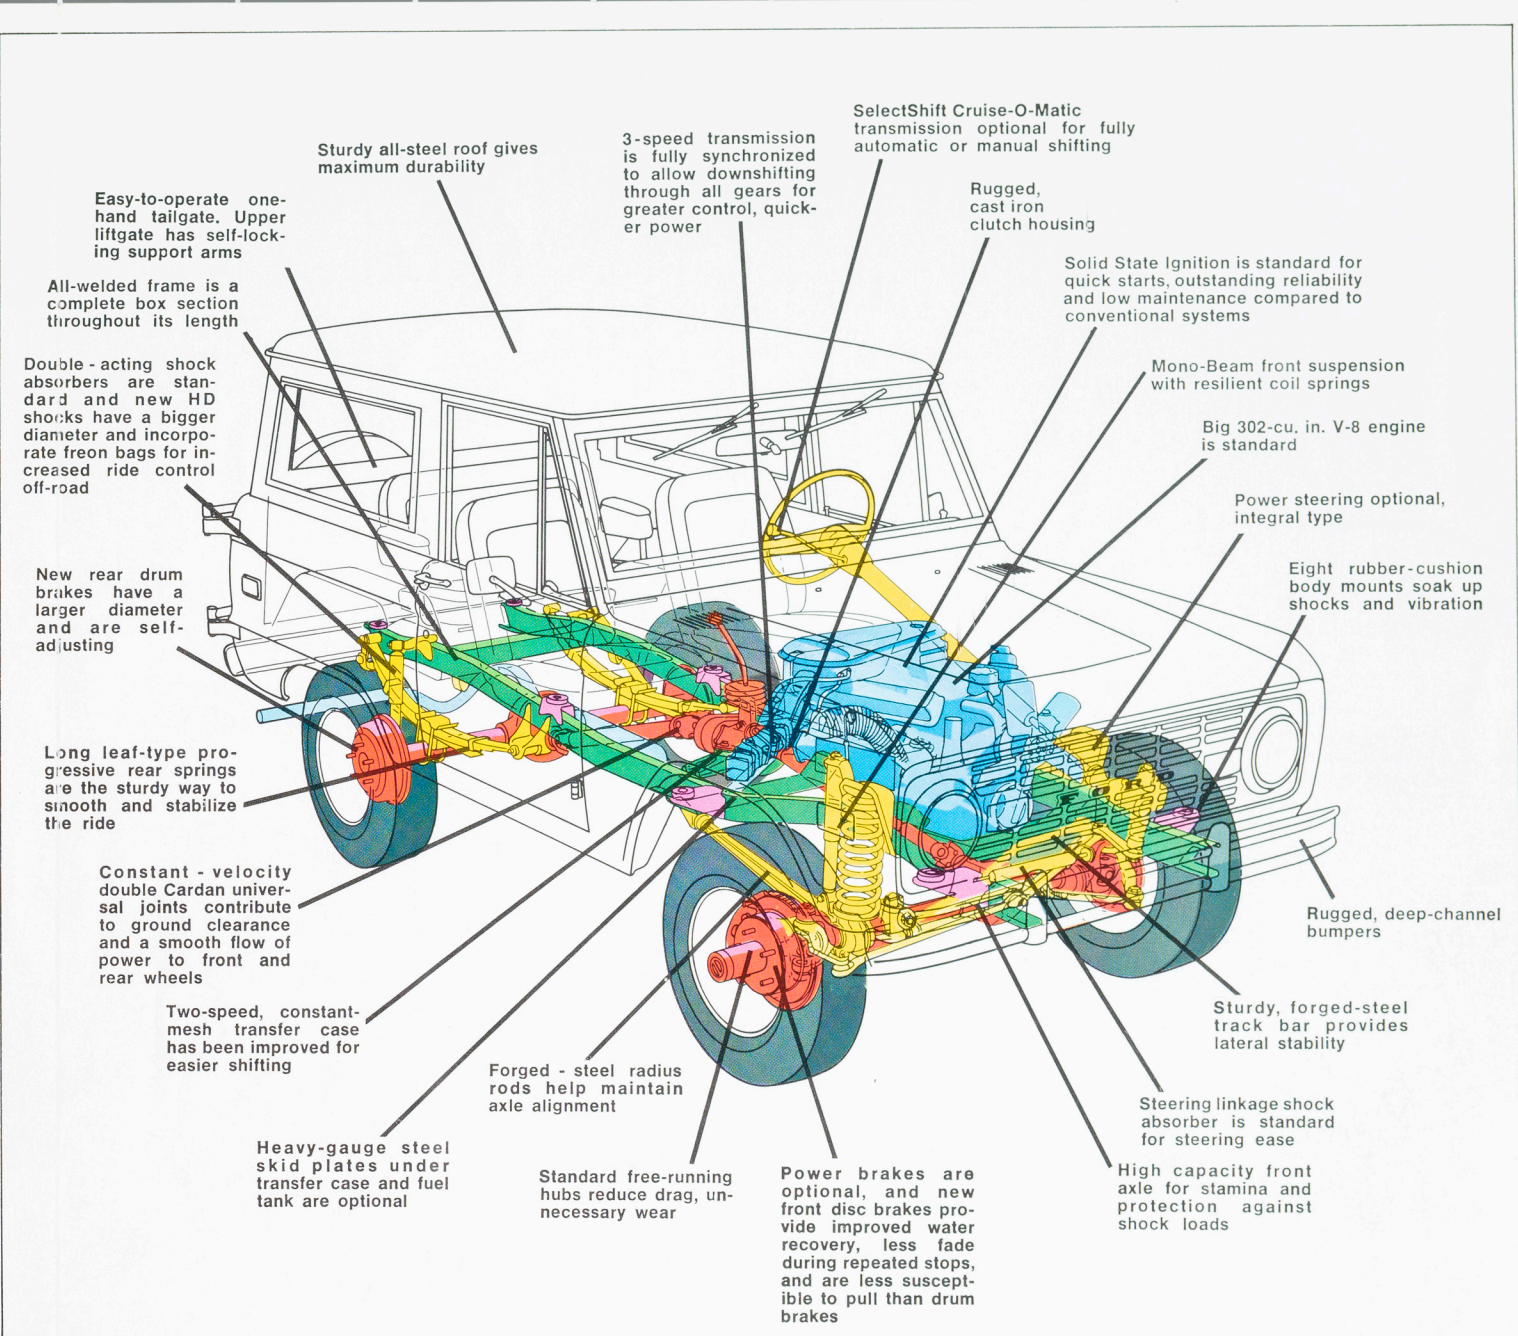

Heavy-duty front axle. Bronco's ability to get up and over high obstructions is matched by its ability to take it when crashing down. Punishing shock loads are just routine off-road work for Bronco's heavy-duty front axle. And rugged Mono-Beam front suspension provides strong support for the big axle.

Excellent on- or off-road maneuverability. Maneuvering around boulders and other off-road obstacles is a cinch with a nimble Bronco. Wide-track front axle with 37° turn angle provides outstanding maneuverability. Bronco can turn in a small 33.9-foot circle—tree to tree.

Slope-hugging stability. Bronco has the optimum track width. Wheels are set wide apart for excellent off-road stability, yet narrow enough to negotiate twisting paths and trails. And the identical track of Bronco's front and rear axles allows the rear wheels to follow in the same path made by the front wheels for easier trailblazing.

TO TAME MOST ANY TERRAIN...

attractive, long-wearing vinyl. The convenient transmission shift lever is in the familiar steering-column location.

Bronco is an adventuresome breed of four-wheeler that can get up, over, around or through all kinds of obstacles that might stop the others. The key angles of approach, breakover and departure (details on the back cover) are maximized to give optimum off-road freedom and mobility. High angles of approach and departure permit getting up and down steep inclines or into and out of deep ditches. Big breakover angle helps climbing over peaked projections

without hanging up amidships. High ground clearance and tough, protected underside further aid in negotiating difficult obstructions.

Bronco's big Dana heavy-duty front axle with free-running hubs and forged-steel radius rods provide great durability and reliability. New power brakes are optional and include front disc and big rear drum brakes. A steering-linkage shock absorber is standard for added protection against violent jolts in off-road operations. Same wide stance, front and rear, helps when the going is tough. Front wheels break a trail through brush, snow or sand, and the rear

wheels have a matching track so they can follow right through with minimum resistance. You get a smooth ride and have power in reserve for the bad spots.

Ford's Mono-Beam front suspension with big coil springs smooths the ride while it reinforces durability. Bronco gives you a comfortable ride on the highway and is remarkably well-behaved on off-road jaunts. A front stabilizer bar is available. Wide-track axles also help provide stability on the slopes and sharp-turning maneuverability. All in all, the four-wheel drive Bronco is the smooth, sure way to reach those

difficult job sites or faraway recreation spots. Spirited 302 V-8 engine puts plenty of power at each wheel for terrain-conquering performance through mud, snow or sand.

Engine specifications	302 V-8 (standard)
Displacement	302 cu. in.
Bore and Stroke (in.)	4.0 x 3.0

BRONCO GVW PACKAGE SELECTOR			
GVW Package Ratings: (lb.)	4400*	4600*#	4900*

Tires.....	E78-15 B	E78-15 B	G78-15 B

*Optional GVW package and rating. #Requires rear bench seat.

Bronco GVW packages are designed to aid in selecting the proper vehicle for your needs. By determining the maximum load that will be carried (including the weight of driver and passengers, cargo, and any special equipment), you determine which package to choose.

Sport Bronco with optional radio, rear seat, and special order solid exterior paint treatment (in addition to front winch and bumper)

FORD BRONCOS HAVE ALL THE RIGHT ANGLES

Rugged Ford Broncos combine all the right angles for off-road agility with V-8 performance and your choice of power and dress-up options. A spirited 302-cu. in. V-8 is standard, and features Solid State Ignition system for "breakerless" electrical reliability. Both SelectShift Cruise-O-Matic and power steering are optional. SelectShift Cruise-O-Matic gives you a choice of fully automatic or manual shifting for driving ease

in traffic with full off-road control. Ford's new integral type power steering is now available. It provides quick steering response and easy handling in some of the roughest terrain. New power steering ratio allows improved "close quarter" maneuverability.

Bronco's interior is uncluttered, functional, roomy and practical. Sporty front bucket seats with foam padding in seat cushion and back are standard. A two-passenger rear seat is available. Standard seats are upholstered with

Sport Bronco interior

Bronco interior with optional Ranger Package, Cruise-O-Matic and radio

Bronco's tight body, suspended foot pedals and sealing help seal out noise, dust and road splash. Fresh air heater/defroster, lockable glove compartment, dome light, padded instrument panel, two-speed electric windshield wipers, sun visors, vinyl-coated rubber floor mat and painted channel-type steel bumpers (front and rear) are all standard.

AND OPTIONS FOR DRIVING EASE, COMFORT!

Sport Bronco features, in addition to or in place of standard, include:

- Vinyl door trim panels with bright moldings
- Hardboard headliner with bright retainers
- Vinyl parchment floor mats with bright retainers (front and rear)
- Cigar lighter
- Steering wheel with woodtone horn pad
- Bright-metal windshield and window frames
- Bright grille frame molding and tailgate release handle
- Bright headlight, side marker light and rear reflector bezels
- Argent painted grille
- Bright

bumpers • Bright front bumper guards • Bright-metal wheel covers.

Ranger Package features, in addition to or in place of Sport Bronco, include: Color-keyed, full carpeting (including tailgate and wheelhousings) • Color-keyed vinyl door trim panels with burl woodtone accent • Color-keyed vinyl trim with insulation on rear quarter panels • Cloth and vinyl seat trim in tan, blue or green • Color-keyed instrument panel paint • Hood and lower bodyside tape stripes, white stripe with orange accent • Swing-away spare tire carrier • Spare tire cover, white vinyl with orange accent and Bronco insignia • Coat hook.
