FUSION

STYLED TO STAND OUT.

Fusion V6 Sport
- LED signature lighting
- Distinctive egg-crate grille
- 19" premium Tarnished Dark-painted wheels

Fusion Hybrid
- 18" machined face aluminum wheels with painted pockets
- LED tailamps
- New rear chrome accent strip

Fusion Titanium
- 18" machined face aluminum wheels with painted pockets
- LED headlamps
- LED fog lamps with chrome bezels

*Available feature.
Titanium leather-trimmed interior in Ebony with available equipment.  

1 Available feature.  
2 Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply.  
3 SiriusXM audio and data services each require a subscription sold separately or as a package, by SiriusXM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change.

DIAL UP EXPECTATIONS. It's all about positive reaction. Between you and your vehicle. Approach Fusion with your Intelligent Access Key1 and a simple touch of the driver door handle opens the way. Press the standard push-button start and the engine springs to life. Turn the nicely weighted new rotary gear shift dial to engage the gears—as well as your love for the open road. Your day is off to a great start.

The voice-activated Navigation System1,2 includes a 5-year complimentary trial subscription to SiriusXM® Traffic and Travel Link® services.® Global Positioning System (GPS) technology is combined with available 3-D mapping and provides voice-guided turn-by-turn directions. You'll get detailed traffic information, current and forecasted weather, plus fuel station locations and prices.
The Fusion engine lineup has never been stronger. A potent new 325-horsepower\(^1\) 2.7L EcoBoost® – exclusive to V6 Sport and the most powerful EcoBoost engine ever on Fusion – headlines the 4 Fusion engine choices, including 3 turbocharged, direct-injection EcoBoost engines.\(^2\) The way you engage their power has been thoughtfully redesigned as well. Shift the 6-speed SelectShift® automatic\(^3\) into Drive via the new rotary gear shift dial. Stop there if you want, or tap the “S” button on top. Now, you control the shift points yourself with steering wheel-mounted paddle shifters to enhance your driving fun.

**2.7L EcoBoost**
- 325 horsepower\(^1\)
- 380 lb.-ft. of torque\(^1\)
- EPA-estimated rating: AWD 17 city 26 hwy 20 combined mpg\(^4\)
- Standard: Titanium, Platinum

**2.0L EcoBoost**
- 245 horsepower\(^1\)
- 275 lb.-ft. of torque\(^1\)
- EPA-estimated rating: FWD 21 city 31 hwy 25 combined mpg\(^4\)
- Standard: Titanium, Platinum

**1.5L EcoBoost**
- 181 horsepower
- 185 lb.-ft. of torque
- Auto Start-Stop Technology
- EPA-estimated rating: 23 city 34 hwy 27 combined mpg\(^4\)
- Available: SE

**2.5L iVCT I-4**
- 175 horsepower
- 175 lb.-ft. of torque
- EPA-estimated rating: 21 city 32 hwy 25 combined mpg\(^4\)
- Standard: S, SE

\(^1\) Horsepower and torque ratings achieved with 93-octane fuel. \(^2\) Available feature. \(^3\) SelectShift capability not available on 2.5L iVCT engine. \(^4\) Actual mileage will vary.
There can only be one best. And editors at U.S. News & World Report named Fusion Hybrid “2016 Best Hybrid Car for the Money.” As it maximizes efficiency by seamlessly switching between its gas engine and electric motor, Fusion Hybrid never loses sight of its fun-to-drive nature. “Its steering is sharp and direct, and ... its handling is oriented pleasingly toward the sporty side,” says Edmunds.com. This year, software improvements helped engineers better harmonize engine speed with pedal tip-in, resulting in an even more connected feel.

Inside, the vibrant SmartGauge® with EcoGuide instrument cluster actually grows green “Efficiency Leaves” as you drive. The more efficiently you drive, the more leaves grow – giving you instant feedback. And Fusion Hybrid offers plenty of learning opportunities, as it can operate in electric mode at speeds up to 85 mph thanks to its lithium-ion battery. Plus, the Regenerative Braking System can recover 94% of the energy spent during braking and use it to help recharge the battery. Even when coming to a stop, forward thinking drives your day.
STYLED TO SATISFY. With spacious room for up to 5, a carefully crafted interior welcomes all to Fusion. On Titanium, you’ll be treated to leather-trimmed, 10-way power, heated front seats with memory settings for 2 drivers. Aluminum brake and accelerator pedal covers. A leather-wrapped steering wheel. A convenient 110-volt power outlet* to recharge your devices. And ambient lighting in your choice of 7 hues to bring it all together.

For your listening pleasure, enjoy the sound from a well-balanced, 12-speaker Audio System from Sony®. Listen to everything you love with SiriusXM® Satellite Radio.* Get over 150 channels including all kinds of commercial-free music, plus every major sport and the best talk, news, comedy and entertainment. And you’ll hear it all with a 6-month trial subscription to the All Access package, included with your new Fusion. So you can rock your ride, plus listen anywhere online and on the SiriusXM app.

*Available feature. *SiriusXM audio and data services each require a subscription sold separately, or as a package, by SiriusXM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change.
SYNC 3

In addition to all the voice-activated benefits of SYNC® – placing and answering calls, and controlling music from your devices – you’ll love the easy-to-use interface of SYNC 3.™ An 8” color LCD screen displays phone, audio and navigation™ features. Enhanced voice recognition lets you give simple commands. A capacitive touchscreen includes a convenient swipe feature, as well as pinch-to-zoom functionality within navigation™.

SYNC Connect

With a SYNC Connect™ equipped Fusion, you can use FordPass® to locate your parked vehicle and remotely access features such as start, lock and unlock, and vehicle status including fuel level and approximate mileage. You can also schedule specific times to remotely start your Fusion so it’s ready to hit the road as soon as you are.

SYNC AppLink

Use your voice to control some of your favorite compatible mobile apps (like Pandora® and iHeartAuto), thanks to standard SYNC AppLink™.

Siri Seamless Integration

Bring the power of Siri® into Fusion with Siri Eyes Free,® your paired iPhone®, and a long press of the voice-recognition button on the steering wheel.

Automatic Updates Over Wi-Fi

Keep SYNC 3 current with the latest software as new updates become available.® All you need is a Wi-Fi® connection.

2017 Ford Fusion | ford.com

1 Available feature. 2 Don’t drive while distracted. Use voice-operated systems when possible; don’t use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. 3 SYNC Connect is an optional feature on select Fusion models and includes service for 5 years from the vehicle sale date as recorded by the dealer. FordPass is available through a free download via the App Store® or Google Play™. Latest availability Spring 2016. Message and data rates may apply. Service may be limited by mobile phone network coverage area. To learn more about where FordPass can take you, visit fordpass.com. 4 SYNC AppLink is compatible with select smartphone platforms and requires any compatible apps to be installed and running on a capable smartphone while connected to Ford SYNC. Commands may vary by phone and AppLink software. Message and data rates may apply. 5 Requires SYNC 3. 6 Optional Navigation System map updates cannot be received via Wi-Fi and require a separate update.
SENSES WHAT YOU CAN'T SEE. BLIS® (Blind Spot Information System) alerts you with a light in either sideview mirror if its radar sensors detect a vehicle in the corresponding blind spot. Cross-traffic alert, part of the system, notifies you with a beep and a warning light in your sideview mirror if it detects a vehicle approaching either side as you slowly back Fusion out of a parking space. Either way, BLIS with cross-traffic alert helps keep you aware of things that may be just out of your line of view.

ALERTS YOU TO TAKE ACTION. Pre-Collision Assist with Pedestrian Detection including collision warning, brake support and active braking fuses information from a forward-facing camera and radar technology to help in various driving situations. The system monitors the proximity of Fusion to other vehicles, and also pedestrians. If a potential collision is detected, collision warning can alert you with visible and audible signals, so you can take action. If needed, brake support will precharge and increase brake-assist sensitivity to provide full responsiveness when you do brake. And if the system determines a collision is imminent, active braking may automatically apply the brakes.

HELPS KEEP YOU CENTERED. A new Lane-Keeping System can detect lane markings and apply torque to the steering wheel if it senses your vehicle drifting unintentionally out of its lane. If needed, the Lane-Keeping System can also send gentle vibration pulses to the wheel to prompt you to steer back toward center. If it detects you’ve come too close to – or crossed – the markers multiple times, a Driver Alert System displays a coffee cup icon to suggest taking a break from driving.

ALLOWS YOU TO SET YOUR PACE. Adaptive cruise control with stop-and-go uses advanced radar technology to scan for slower vehicles in front of you. It can automatically adjust your vehicle’s speed to maintain a preset gap from that vehicle. The system can be used at both high and low speeds, and can even follow the vehicle in front of you to a complete stop.
WHEN PARKING, THERE IS NO PARALLEL.

After just one use of its Enhanced Active Park Assist System, you’ll never go back to parking Fusion the “old-fashioned” way. Whether you’re backing into a perpendicular spot or slowing down to parallel park, ultrasonic sensors can identify a parking space that is the right size, then the system steers the vehicle into it. All you do is follow on-screen prompts, and operate the accelerator, brake and rotary gear shift dial as needed.

The system can even provide steering assistance when pulling out of a parallel spot. And in parking maneuvers, the Forward and Reverse Sensing Systems provide guidance by emitting beeping tones to alert you to objects near the front, rear or sides of Fusion. No second guessing. Much less stress.
Rarer even than gold, platinum signifies ultimate luxury. One look inside and you’ll know how Fusion Platinum got its name. In addition to the standard leather-trimmed heated and cooled front seats in Medium Soft Ceramic, the instrument panel and center console are leather wrapped and stitched, while leather also wraps the door armrests, the center console armrest and the heated steering wheel.

Every driver-assist technology Fusion offers is standard on Platinum. As is a Navigation System with SiriusXM® Traffic and Travel Link® to help guide you. Outside, Platinum distinction is marked by a Magnetic-painted sport-style grille, a power moonroof overhead, and 19” polished aluminum wheels1 at the corners.
Introducing V6 Sport! One hot new Fusion. Ready to greet the street with 325 horsepower. Its distinct appearance is backed by a new 2.7L EcoBoost V6 engine, the most powerful ever offered on Fusion, and a paddle-shifted 6-speed SelectShift automatic transmission. To handle all that thrust, a modified sport-tuned suspension and standard intelligent all-wheel drive (AWD) can combine to deliver a taut ride, precise cornering and extreme road-holding finesse.

To help you adapt quickly to changing road conditions, V6 Sport features continuously controlled damping (CCD) with new pothole detection. 12 different sensors in the system read the road — and your driving input — every 2 milliseconds, then quickly adjust the firmness and damping at all 4 corners to help Fusion be in better harmony with the road surface. If a pothole is detected, the system reacts so quickly that it can adjust the shock absorbers to help reduce the severity of impact to vehicle occupants. Hit the Sport setting to tighten suspension tuning, firm up steering calibration, and enjoy a more powerful engine sound inside the cabin — all while feeling more connected to the pavement.

Dark Earth Gray leather-trimmed seats with suede cloth inserts are a V6 Sport exclusive.
KEEP YOUR POISE THROUGH THE CORNERS, EVEN UNDER ACCELERATION, THANKS TO TORQUE VECTORING CONTROL.1
By applying slight braking force to the inside front wheel as needed to help more torque reach the road, this standard system helps Fusion stay firmly planted. To further enhance Fusion performance, there’s Intelligent all-wheel drive (AWD).2 This fully automatic system constantly monitors and predicts traction, transferring power between the front and rear wheels as needed, typically before wheelslip can even occur. It’s designed to effortlessly improve handling characteristics and help maximize traction.

WHENEVER OUTSIDE LIGHT LEVELS DICTATE, AUTOMATIC HEADLAMPS2 TURN ON TO HELP KEEP THE ROAD AHEAD WELL LIT.
At the slightest hint of moisture, rain-sensing wipers2 activate to help keep the windshield clear. And new this year, the standard Individual Tire Pressure Monitoring System allows you to see individual pressure in each tire.3 Not only will you be notified if any tire’s pressure is low, but the system will tell you how low.

HIGHLY RESPONSIVE IN NATURE.

1Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions. 
2Available feature.
3Excludes available spare.
