Style. Spirit. Space to spare.

Enjoy them all in this stylish, fuel-efficient¹ hybrid that’s fun to drive. Its versatile interior, ready for people or cargo, is the perfect place to enjoy new SYNC® ³ – our next generation of voice-activated technology.² It’s easy to go further in C-MAX Hybrid.

¹EPA-estimated rating of 42 city/37 hwy/40 combined mpg. Actual mileage will vary.²Available feature. Driving while distracted can result in loss of vehicle control. Only use SYNC/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones.
Maximize every ride.

“Our C-MAX was a joy to push through winding roads and we loved the smooth ride and hushed cabin,” said editors at kbb.com.1 “In around-town driving, the tall roof and expansive side glass of C-MAX provide excellent visibility, while the raised seats give a commanding view ahead.”

Truly engaging to drive, C-MAX Hybrid offers 188 combined horsepower. An eCVT (electronically controlled continuously variable transmission) helps transfer its power and 129 lb.-ft. of torque to the road.

Switching seamlessly between its 88-kW electric traction motor and 2.0L Atkinson-cycle I-4 gasoline engine, the power-split hybrid architecture is powered by a state-of-the-art, lithium-ion battery.

All-electric mode works at speeds of up to 85 mph, since the engine is only engaged as needed to power the battery and to enhance performance. An invigorating drive. Excellent efficiency. The 2016 C-MAX Hybrid brings it all together.

Maximize your connections.

1Available feature. Driving while distracted can result in loss of vehicle control. Only use SYNC/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. 2Available feature. SYNC AppLink is available on select models and compatible with select smartphone platforms. Commands may vary by phone and AppLink software. °The vehicle’s electrical system (including the battery), the wireless service provider’s signal and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to SYNC, and the 911 Assist feature enabled, in order for 911 to be dialed. When the feature is ON, 911 Assist uses your paired and connected mobile phone to assist occupants to contact emergency services by dialing 911 if your airbag deploys or, on certain vehicles, if the emergency fuel pump shut-off is activated. Aftermarket on-board diagnostic devices may interfere with various vehicle systems including Vehicle Health Report and 911 Assist. To avoid interference, remove the device or contact the device maker for more information on compatibility. °Available feature. 4You must have a Bluetooth-enabled phone paired to your SYNC system. °Optional Navigation System map updates cannot be received via Wi-Fi and require a separate update.
Enjoy a rewarding driving environment.

Maximize the possibilities with best-in-class versatility.

Loading cargo into your multi-activity vehicle is easy with the class-exclusive, hands-free foot-activated liftgate¹ on C-MAX Hybrid. You can even program its fully opened height to the position that works best for you.

Just kick your foot under the rear bumper with your Intelligent Access¹ key fob tucked in a pocket or purse. Sensors detect your leg, the motion and the proximity of the fob, triggering the liftgate to open or close.

The standard 60/40 split rear seat folds down to provide a flat load floor. And you’ll find that cargo space is abundant – up to 52.6 cu. ft.

In-floor compartments behind the front seats are perfect for discreetly stowing your tablet, computer or other small items. C-MAX Hybrid is thoughtfully designed for your on-the-go lifestyle.

Empower each drive with smart tech.

C-MAX Hybrid can help with curbside parking, backing up, maximizing your efficiency and more.

**Make parallel parking easier** with active park assist. This system not only helps you find a spot, it actually steers the vehicle into place while you control the gear shifter, and brake and accelerator pedals.

**Help gauge how close** something is to the back of your vehicle using the rear view camera, which can display a full-color image on the SYNC® screen. It even offers you conveniently color-coded distance guidelines and a dotted center line for quick reference.

**Empower yourself** with real-time feedback from the vibrant green leaves on the standard SmartGauge® with EcoGuide instrument cluster. The more efficiently you drive, the more lush your vine will be – giving you coaching, guidance and confirmation with every drive. The system also includes a Brake Coach to help you optimize your driving range (and grow more leaves) with regenerative braking. Together with EcoSelect, which allows C-MAX Hybrid to operate more efficiently by reducing the amount of power drawn from the vehicle, you can help maximize fuel efficiency. EcoCruise is also included. Steering wheel-mounted controls and a built-in tutorial make it easy to use.
