QUICK. efficient.

The power of 6. As in a die-cast, aluminum-block V6 engine. Good for an impressive 265 horses and teamed with a sophisticated 6-speed automatic. Tap into torque across the band: merges, passes—no sweat. The fully independent suspension facilitates handling. It features hydro-bushings and an isolated subframe attached at, you guessed it, 6 locations. Smooth and precise never had it so good.

Driving confidence can be elevated to enthusiast level on Edge Sport. Courtesy of optional 22" wheels, wrapped in high-performance Pirelli® Scorpion Zero tires, together with a custom-tuned suspension that incorporates a bigger front stabilizer bar and enhanced shocks, springs and steering. RICH, LEATHER-TRIMMED LIVING ROOM...

...WITH A FRESH INFUSION OF SIENNA.

The stylish seating surfaces are accented with contrast stitching - same holds true for the leather-wrapped steering wheel and shift knob. enriching. enchanting.
ENGAGING.

Edge can do it all:
All depends on what you envision.

a. The handy POWER LIFTGATE raises and lowers at the simple press of one of 3 buttons – either on your key fob, on the dashboard or in the cargo area. It’s an optional convenience.

b. A real eye-opener: The VISTA ROOF™ encompasses nearly 40% of the top and creates a daylight opening 3X larger than the average moonroof. The front panel powers open; the rear stays put. This panoramic option also features dual power sunshades.

c. DUAL INVI$ION™ DVD HEADRESTS – available as a Ford Licensed Accessory – work independently and tout 7" adjustable monitors, game ports, infrared headphones and more.

d. The standard BLIND SPOT MIRRORS integrate an innovative convex spotter that assists the driver by increasing visibility along each side of the vehicle.

e. ADAPTABILITY is the word for Edge – equipped with a 60/40 split fold-flat, reclining rear seat; folding center armrest; and a time-saving EasyFold™ rear seatback release on SEL, Limited and Sport.
the ABCs of AWD.

Works for more peace of mind in all kinds of weather, or for greater handling finesse even on dry pavement: All-Wheel Drive (AWD) is optional to constantly monitor conditions and act in an instant, on-demand. The ideal amount of torque is delivered to all 4 wheels, well before any slippage. Fact is, this AWD system helps keep you moving – even if only one wheel maintains traction.

fordvehicles.com
Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions. For more information on AdvanceTrac with RSC, visit fordvehicles.com. SOS hardware may become damaged or the battery may lose power in a crash, which could prevent operation. Not all crashes will activate an airbag or safety belt pretensioner.

Once, twice, three times a TOP SAFETY PICK – for the 2007–2009 model years – per the Insurance Institute for Highway Safety (IIHS). Edge achieves the highest rating possible in rigorous front, side and rear crash tests. Kudos to all those side-intrusion door beams, energy-absorbing door-trim panels, and bumper-to-bumper flow-through rails. Passenger compartment energy management at its finest.
