A monochromatic paint scheme, front to back - Punctuated with wide, bright dual exhaust tips. Interior harmony is synthesized by Ambient Lighting And exclusive Alcantara® Grey seat inserts. Punch it up with this optional tandem: 22" wheels, Plus a performance-tuned suspension. Sport sizzles.

in MOTION it stirs Emotion.
QUICK. efficient.

The power of 6. As in a die-cast, aluminum-block V6 engine. Good for an impressive 265 horses and teamed with a sophisticated 6-speed automatic. Tap into torque across the band: merges, passes – no sweat. The fully independent suspension facilitates handling. It features hydro-bushings and an isolated subframe attached at, you guessed it, 6 locations. Smooth and precise never had it so good.

Driving confidence can be elevated to enthusiast level on Edge Sport. Courtesy of optional 22" wheels, wrapped in high-performance Pirelli® Scorpion Zero tires, together with a custom-tuned suspension that incorporates a bigger front stabilizer bar and enhanced shocks, springs and steering. With 911 Assist, the system can make an emergency call from
your phone if any airbag has deployed. And, unlike other
systems that send you to a call center first, SYNC connects
you directly to a 911 operator. SyncMyRide.com has all the
latest news.

NAVIGATION WITH SIRIUS TRAVEL LINK.™
Displayed on a generous 6.5” LCD touch screen, the optional GPS-linked Navigation System offers voice activation for
everything from driving directions to accessing music. It also provides nearly 10 gigs of storage space for photos (on
your home page) and music (up to 2400 songs). Class-exclusive4 SIRIUS Travel Link is the source for up-to-the-minute
local traffic, weather, fuel prices, sports scores and movie listings.5 So you’re always in the know.
SIRIUS® SATELLITE RADIO.
Standard on Edge SEL, Limited and Sport, SIRIUS Satellite Radio² comes with a 6-month subscription: Surf more than 130

vehicle crash. The paired mobile phone must be turned on, connected to SYNC, and the 911 Assist feature enabled in order for 911 to be dialed.

it is safe to do so. ⁵SYNC with Traffic, Directions and Information available Summer 2009. These SYNC services not available with SIRIUS
Travel Link or Navigation System. See your dealer for details.
RICH, LEATHER-TRIMMED LIVING ROOM...

...WITH A FRESH INFUSION OF SIENNA.

The stylish seating surfaces are accented with contrast stitching - same holds true for the leather-wrapped steering wheel and shift knob. Floor mats are of the premium carpeted variety, embellished with the “EDGE” logo. There’s also a hint of dark, brushed-aluminum with this engaging new Limited Interior Appearance Package option.
enriching. enchanting.

**ENGAGING**

Edge can do it all:
All depends on what you envision.

a. The handy **POWER LIFTGATE** raises and lowers at the simple press of one of 3 buttons – either on your key fob, on the dashboard or in the cargo area. It's an optional convenience.

b. A real eye-opener: The **VISTA ROOF™** encompasses nearly 40% of the top and creates a daylight opening 3X larger than the average moonroof. The front panel powers open; the rear stays put. This panoramic option also features dual power sunshades.

c. **DUAL INViSiONTM DVD HEADRESTS** – available as a Ford Licensed Accessory – work independently and tout 7” adjustable monitors, game ports, infrared headphones and more.

d. The standard **BLIND SPOT MIRRORS** integrate an innovative convex spotter that assists the driver by increasing visibility along each side of the vehicle.

e. **ADAPTABILITY** is the word for Edge – equipped with a 60/40 split fold-flat, reclining rear seat; folding center armrest; and a time-saving EasyFold™ rear seatback release on SEL, Limited and Sport.
the ABCs of AWD.

Works for more peace of mind in all kinds of weather, or for greater handling finesse even on dry pavement: All-Wheel Drive (AWD) is optional to constantly monitor conditions and act in an instant, on-demand. The ideal amount of torque is delivered to all 4 wheels, well before any slippage. Fact is, this AWD system helps keep you moving – even if only one wheel maintains traction.
1 Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. For more information on AdvanceTrac with RSC, visit fordvehicles.com. 2SOS hardware may become damaged or the battery may lose power in a crash, which could prevent operation. Not all crashes will activate an airbag or safety belt pretensioner.
