Thank you for your interest in the **2011 Ford Edge**. Included in this brochure you’ll find information about:

**DESIGN:** From the bold grille through the smooth and fluid lines, aerodynamic shape and commanding profile, the new Ford Edge looks like nothing else on the road.

**TECHNOLOGY:** Edge introduces MyFord Touch™ technology. This milestone approach to interacting with your vehicle is one of 11 exclusive features in the class of mid-size crossovers.

**VERSATILITY:** Edge adapts easily to your active and varied lifestyle, with an interior you can configure to your particular needs. Storage space is plentiful as well as flexible.

**PERFORMANCE:** Experience the power of the new 3.5L Ti-VCT V6 engine with advanced Twin Variable Cam Timing technology. Or up the performance ante with the new 3.7L Ti-VCT V6 in the exciting Edge Sport.

**EXPERIENCED MY FORD YET?** Get an inside look at the benefits of Ford ownership at the My Ford owner Web site. It’s a one-stop spot for managing important vehicle information – 24/7, whenever you need it. It’s free to register for personalized maintenance schedules, incentives and offers, and much more. You can even access your Ford Credit information and online bill payment services. Log on to www.myford.fordvehicles.com to get started.
The New 2011 Edge

Behind the fresh face, a new 3.5L Ti-VCT V6 engine delivers 285 horsepower – the best standard horsepower in the class.\(^1\) It also gives you 27 mpg hwy\(^2\) – maximum V6 mileage no one else can beat.\(^3\) Available all-new, industry-first MyFord Touch™ driver connect technology fully integrates your digital world with your vehicle. And the available new BLIS® (Blind Spot Information System) and class-exclusive adaptive cruise control help you maneuver smarter. A crossover that does all this – with inspiring handling and sportier looks than ever? Must be the new Ford Edge.

\(^1\)Class is Midsize Crossovers. \(^2\)EPA-estimated 19 city/27 hwy/22 combined mpg, FWD with 6-speed SelectShift Automatic.\(^3\)
Thrills with more power and mpg.

Twin independent variable camshaft timing (Ti-VCT) on the new standard 3.5L Ti-VCT V6 engine helps Edge deliver maximum V6 efficiency and power no one in the class can beat. We're talking 27 mpg hwy and best-in-class 285 horsepower, not to mention 253 lb.-ft. of torque. On top of all that, every Edge is equipped with a fully independent suspension that's been retuned for even sharper handling. The available new 6-speed SelectShift Automatic™ transmission is engineered to hold your manually selected gears for a truly engaging drive. Of course, you can also allow it to choose the best gear for you. Either way, you're in for an exhilarating experience.
Introducing MyFord Touch
First-of-its-kind technology — only from Ford.

Introducing revolutionary all-new MyFord Touch™ driver connect technology — powered by the latest version of our award-winning Ford SYNC® system. The 2011 Edge is the first and only vehicle to bring you anything like it. Vibrant LCD screens. Intuitive controls. Voice activation. Together, they make it easy to access your entertainment, phone, navigation and more. Available MyFord Touch features two 4.2-in screens in the gauge cluster, 5-way controls on the steering wheel, an 8-in. touch screen and an extensive media hub. It’s an innovative new way of interacting with your vehicle that allows you to keep your hands on the wheel and your eyes on the road.

MyFord Touch features correct at time of release.
Certain functions require compatible mobile devices.

EDGE LIMITED. CHARCOAL BLACK. AVAILABLE EQUIPMENT.
Brings your phone book to life. Voice-activated hands-free calling now lets you "see" who’s calling when MyFord Touch displays your phone book contact photos.

Tracks your interests. Local movie times, today’s horoscopes, stock quotes and more – it’s all just a call away with exclusive Ford SYNC® Traffic, Directions and Information (i).

Displays landmarks in 3D. The available Navigation System is a convenient SD-card upgrade that provides voice-guided turn-by-turn directions as well as colorful maps that you can zoom and scroll with more accurate visual information including new 3D landmarks.²

Saves your setting. One touch of the MyTemp button on the climate screen recalls your specific temperature setting. Fan speed, optional heated seats, and other climate-related features are easily accessible from the same screen.

Plays your music. CDs. USBs. MP3s. SYNC works with lots of sources to play tunes using easy voice commands.

Displays album art. Browse the contents of your MP3 player by album in a cool 3D carousel with MyFord Touch.²

²Only available when the vehicle is in Park or moving less than 3 mph.

¹Driving while distracted can result in loss of vehicle control. Only use mobile phones/MyFord Touch/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear.
MyFord Touch
Pulls it all together.

Set it up your way.
The 5-way controls on the left side of your steering wheel operate the vibrant LCD screen to the left of the speedometer. It’s where you go to choose your display language, check your distance to empty and set numerous system preferences. All with your hands on the wheel.

MyFord Touch features correct at time of release. Certain functions require compatible mobile devices.

Touch, talk, drive.
The most frequently used features of the available MyFord Touch system are repeated on the LCD screen to the right of the speedometer. So you can use the 5-way controls on the right side of the steering wheel, or voice commands if you prefer, to make adjustments while keeping your eyes on the road.

Share your music, photos, videos and more.
The available MyFord Touch™ system includes 2 USB ports, an SD card reader and audio/video input jacks. Use them to access your music, photos and video on compatible portable devices like thumb drives, media and DVD players, camcorders, hard drives and more.¹ You can even plug in your video game console or use your air card to turn Edge into a mobile Wi-Fi® hot-spot for your passengers.

¹Some features are only available when the vehicle is in Park.

Know where you’re going with bold new graphics.
The latest version of our exclusive Ford SYNC® Traffic, Directions and Information services allows you to listen to turn-by-turn directions and follow along on-screen with new graphic arrows, street names and distance markers. You can also get personalized traffic reports on demand, and set up customized text-message alerts to help you plan ahead.² Visit SyncMyRide.com for the latest features and details.

²Traffic alerts and turn-by-turn directions available in select markets. Standard text messaging and data rates apply.
Outperforms the rest while turning heads.

Best-in-class 305 horsepower and 280 lb.-ft. of torque come courtesy of its all-new 3.7L Ti-VCT V6 engine. Racing-style paddle shifters provide ultimate control of its standard new 6-speed SelectShift Automatic™ transmission. A sport-tuned suspension helps it deliver the engaging steering and spirited handling you crave in the corners, while maintaining a comfortable ride overall. Outside, aggressive front and rear fascias combine with a bold Tuxedo Black Metallic grille, jaw-dropping 22-in. aluminum wheels, oval-shaped chrome exhaust tips and more to give Edge Sport a look that backs it all up.

*EPA-estimated 18 city/25 hwy/20 combined mpg.
Available **adaptive cruise control and collision warning with brake support** are smart new radar-based technologies no other vehicle in the class offers. Adaptive cruise control uses forward radar to monitor traffic and can adjust your cruising speed to **maintain a preset “headway” distance** to the vehicle in front of you. Collision warning with brake support is designed to **alert you if its sensors detect a potential collision** with the car in front of you by flashing a warning across the windshield and sounding an alarm. Since early warning is key to helping prevent an accident, the alert can provide 1.5 to 2.5 seconds for you to hit the brakes. If you don’t react in time, it pre-charges the brakes and increases brake-assist sensitivity to **provide full responsiveness when you brake**.

Based on a speed of 60 mph.
Senses traffic you may not see.

The available new BLIS® (Blind Spot Information System) with cross-traffic alert uses sophisticated radar-based technology to detect vehicles in the surrounding lanes while you're driving. If BLIS detects a vehicle in your blind-spot zones, a warning light appears in the appropriate sideview mirror. Cross-traffic alert uses similar technology to watch for traffic behind you while you're slowly backing up. When it detects vehicles up to 15 yards away (about 5 parking spaces), it sends an audible warning, a message center alert, and a visual display in the corresponding mirror. New technology to help prevent a bad day.

2011 EDGE

ford.com
Surrounds you with new luxuries.

Graceful new lines effortlessly guide your eye along the dashboard and down the flow-through center console, merging into a singularly inviting interface. The new Edge is designed to comfort like never before with supple leathers, new seat fabrics, softer trim materials and more padding at essential touch points. And for your ears: a new 390-watt Audio System from Sony is standard on Limited and Sport. Its unique Sony-designed finish panel features touch-sensitive switches and is completely flat except for the multifunction dial. This system includes new HD Radio™ technology to deliver your favorite AM and FM channels, plus new local FM channels, in crystal-clear digital sound. With HD Radio, you can even use the “TAG” button on the touch screen to tag songs for purchase at the iTunes Store.
Broadens your view of everything.

With a daylight opening that encompasses nearly 40% of the top, the available panoramic Vista Roof™ gives you and your passengers access to lots of sunshine and fresh air, not to mention the amazing new scenes you’ll be inspired to seek out. Enjoy it all from the comfort of the available new 10-way power, heated, leather-trimmed driver’s seat – standard on Limited and Sport. It includes power-adjustable lumbar support for a precise fit and a memory feature that makes it easy to share with another driver. To personalize your Edge, there’s customizable ambient lighting (also standard on Limited and Sport) with 7 different hues. And on the practical side, every Edge gets a 60/40 split reclining rear seat that folds flat, with an EasyFold® rear seat back release on SEL, Limited and Sport that enables you to adapt in a snap.
Protects with state-of-the-art safety.

Bumper-to-bumper flow-through rails. Side-intrusion door beams. Energy-absorbing door-trim panels. All standard. AdvanceTrac® with RSC® (Roll Stability Control™) works automatically to help keep all 4 wheels firmly planted. It’s the only brake-based electronic stability control system in the class to utilize a roll-rate sensor, monitoring the vehicle’s roll motion at least 100 times per second. You also get 6 standard airbags and the SOS Post-Crash Alert System. Optional all-wheel drive (AWD) helps keep you moving even if only one wheel maintains traction. It provides more peace of mind in all kinds of weather, and greater handling finesse even on dry pavement.

Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions.
Standard Features

Mechanical
- 4-wheel disc Anti-Lock Brake System (ABS)
- Towing package (1)
- Easy Fuel® capless fuel filler
- Front-wheel drive (FWD)
- Hill start assist
- Independent front and rear suspension

  - FWD: 18.0
  - AWD: 19.0

New Vehicle Limited Warranty. We want your Ford Edge ownership experience to be the best it can be. So under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/90,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage – all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty.

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you’ll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.

Ford Extended Service Plan. For a purchase or lease, the Ford Extended Service Plan (ESP) gives you “Peace-of-Mind” protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for a Ford ESP, the only service contract backed exclusively by Ford and honored at all Ford Lincoln Mercury dealerships.
