Thank you for your interest in the **2012 Ford Fusion**. Included in this brochure you’ll find information about:

**GREEN:** Fusion gas-powered and hybrid models deliver plenty of performance. Impressive fuel economy, too. So you can enjoy a car that is responsive to the driving enthusiast within you – and all the while be assured that you’re doing right by the environment.

**TECHNOLOGY:** Available Ford SYNC® is a technological feature with multiple capabilities, many available to you through simple voice commands. Yet another available feature making life on road easy is BLIS® (Blind Spot Information System) with Cross Traffic Alert.

**PERFORMANCE:** Fusion offers four performance choices: The responsive and economical 2.5L Duratec® I-4. The 3.0L Duratec V6 with flex-fuel capability. The powerful 3.5L Duratec V6 in the Sport model. And the Fusion Hybrid with its outstanding EPA-estimated 41 city mpg.

**DESIGN:** Fusion styling is dynamic and fluid, in motion even when standing perfectly still. One the inside, the upscale design breathes quality craftsmanship throughout. And underneath the Fusion body are the components of a precisely engineered driver’s car.

**EXPERIENCED MY FORD YET?** Get an inside look at the benefits of Ford ownership at the My Ford owner Web site. It’s a one-stop spot for managing important vehicle information – 24/7, whenever you need it. It’s free to register for personalized maintenance schedules, incentives and offers, and much more. You can even access your Ford Credit information and online bill payment services. Log on to www.myford.fordvehicles.com to get started.
Want better mileage? Get the best in the city.

Fusion Hybrid leaves others in its zero-evaporative-emissions wake with best-in-class 41 mpg city, while the 2.5L I-4 on Fusion delivers an impressive 33 mpg hwy. For you thrill seekers: Fusion Sport gets a 263-horsepower 3.5L V6. Imagine taking calls without picking up your phone. Summoning songs without touching your media player. Making quick, clean stops at the pump. Fusion even has systems to help you back out of parking spots, change lanes and more. Get what you want in the 2012 Ford Fusion. Drive one today.
Grows a virtual forest with over 700 city miles per tank.¹

Reward yourself.
Get instant feedback on driving performance with the efficiency forest, exclusively on Fusion Hybrid. The better your mpg, the more leaves. Go easy on the accelerator and your forest flourishes. Fusion Hybrid can operate at speeds of up to 47 mph without using any fuel, which helps it get 41 mpg city and over 700 city miles per tank.¹ So you could be seeing a lot of green.

Display your style.
The vibrant LCD gauges in Fusion Hybrid offer you a choice of 4 modes, each with a bit more information than the last: Inform, Enlighten, Engage or Empower. Adjust the settings so you always see just the displays you want. Controls on the steering wheel and a built-in tutorial make it easy to set the language, units of measurement and more.

¹EPA-estimated 41 city/36 hwy/39 combined mpg. 17.5-gallon tank. Actual mileage will vary.
²Coming Fall 2011.
Powers both sides of your brain.

I-4 efficiency.
The standard 2.5L I-4 engine and the 6-speed automatic transmission\(^1\) team up for 33 mpg hwy — that’s fuel economy a similarly equipped Camry and Altima can’t beat.\(^2\) Pair the 2.5L with the standard 6-speed manual, and you can have a blast putting Fusion through its paces.

V6 authority.
The 3.0L V6 flex fuel engine\(^1\) packs a 240-horsepower punch along with a 6-speed SelectShift Automatic™ transmission that’s the best of both worlds. Shift whenever you want, or let it choose the best gear for you. Flex fuel means it runs on E85, gasoline or any blend of the two.

AWD tenacity.
Every Fusion starts with an independent double-wishbone setup in front and a multilink twist-blade suspension in back for tight, responsive handling. AdvanceTrac® electronic stability control is also standard. Combine it with the Intelligent All-Wheel-Drive (AWD) System\(^1\) and Fusion keeps moving even in the most inclement weather.

SE. Red Candy Metallic Tinted Clearcoat. Appearance Package. Available equipment.

\(^1\)Available feature. \(^2\)EPA-estimated 33 mpg hwy. FWD vs. 2011 Altima/Camry.
Pulls ahead in the quality race.

Owners rate Ford Fusion higher in quality than Honda Accord.¹ Set your precisely honed Fusion interior aglow with ambient lighting² in 7 different hues that change whenever you like. HD Radio™ Technology, paired with the Navigation System,²,³ ensures a high-quality audio experience as well. It fills your Fusion with crystal-clear, digital sound for AM/FM channels, while bringing you new local FM channels, on-screen information and much more.
Holds its ground in more ways than one.

The 2011 Ford Fusion is projected to hold its resale value better than the 2011 Toyota Camry. So you’ll be enjoying every mile in your new Fusion just that much more. Fusion Sport holds the road and carves the corners like no other thanks to its modified performance-tuned suspension, 263 horses and 249 lb.-ft. of torque from the intense 3.5L V6 under its hood. The 6-speed SelectShift Automatic™ lets you fly through the gears yourself, or leave the fun to Fusion. Inside, dynamic leather-trimmed seats come in your choice of colorful accents or sleek monotone with contrast stitching. Make it as bold as you are.
Hands control the wheel. Voice controls the rest.

Stay connected to calls, music and more with SYNC.

No more searching for your phone. No device on your ear. Connect to your world with voice-activated Ford SYNC. Once paired, SYNC recognizes your phone and automatically transfers your contacts to support voice calling. It also plays music from your phone, MP3, USB or iPod. Just touch a button on the steering wheel and say things like “Call Melissa,” or “Play genre: Pop.” New AppLink lets smartphone users control Pandora internet radio (shown) and Stitcher SmartRadio by voice too. SYNC also offers 911 Assist, and with an activated SYNC Services account you get business searches, turn-by-turn driving directions, custom traffic alerts and more. Personalize your experience at SyncMyRide.com.

Full-color, voice-activated travel guide with SiriusXM.

The Navigation System includes a 6-month trial subscription to SiriusXM Satellite Radio, Traffic and Travel Link to bring you over 130 channels of unique content, plus live infotainment services. Get continuously updated traffic information, plus check local fuel prices, weather reports, movie listings, sports scores and more. This system features a vibrant 8” LCD touch screen with interactive maps you can zoom and scroll. Of course, it also responds to voice commands for hands-free control. Play DVDs while Fusion is in Park and store nearly 10 gigs of your digital music.

1Available feature. Requires compatible mobile device. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Traffic alerts and turn-by-turn directions available in select markets. Text message and data rates may apply. 2Available feature. Coming Fall 2011. 3SiriusXM Satellite Radio, Traffic and Travel Link subscriptions sold separately or as a package after trial expires. SiriusXM Traffic and Travel Link service available in select markets. Subscriptions are governed by SiriusXM Customer Agreement; see www.siriusxm.com.
**Senses what you may not see.**

**Back it out.**
Say goodbye to parking lot stress. With cross-traffic alert, Fusion lets you know if its radar sensors detect a vehicle approaching while you’re slowly backing out of your spot. It sounds a warning, alerts you in the message center, and flashes a light in your sideview mirror.

**Back it up.**
See exactly what’s back there with the rear view camera. A full-color image and handy guidelines display on the large navigation screen or in your rearview mirror whenever you shift into Reverse.

**Change lanes.**
Stop craning your neck trying to see what’s in your blind spot. With BLIS® (Blind Spot Information System), you just check your sideview mirrors before changing lanes. An amber light means the system senses a vehicle in your way.

---

1Available feature. 2Coming Fall 2011. 3BLIS replaces standard integrated blind spot mirrors.
"Top Safety Pick" 3 years in a row.

Travel with confidence knowing Fusion has attained the highest possible rating from the Insurance Institute for Highway Safety (IIHS) each year since 2009. In fact, no other brand offers you more 2011 “Top Safety Pick” vehicles than Ford. Our engineers are constantly developing and advancing safety technologies to help give you peace of mind out there on the road.

Masters challenging moments.
Our standard AdvanceTrac® electronic stability control with brake-actuated traction control automatically helps avoid skidding and fishtailing. It’s particularly beneficial in all kinds of inclement weather.

Personalizes your protection.
Our advanced Personal Safety System™ uses sensors to optimize deployment of the dual-stage front airbags in certain frontal collisions. Front-seat side airbags and 2-row side-curtain airbags help protect both head and chest in certain side-impact collisions.

Clears up blind spots.
Each standard sideview mirror features an integrated convex blind spot mirror that helps alert you to vehicles and objects nearby so you can avoid them.

Promotes smart driving.
Our exclusive MyKey® allows you to program ignition keys with reminders to drive at appropriate speeds, keep the audio volume low and much more.

Reminds you to buckle up.
The Belt-Minder® system sounds a persistent alert to encourage those in front to buckle up for safety on every ride.

Sends an SOS for you.
Our SOS Post-Crash Alert System™ can automatically flash the hazard lights and sound the horn after an airbag has deployed or a safety belt pretensioner has activated in certain collisions. No subscription required.

Directly contacts 911.
Ford SYNC™ with 911 Assist™ uses your phone to call 911 in the event of airbag deployment or fuel pump shutoff. If needed, it can even give the operator an urgent message for you.

1 2009–2011 model years. 2012 model year not yet tested. 2 Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions. 3 SOS hardware may become damaged or the battery may lose power in a crash, which could prevent operation. Not all crashes will activate an airbag or safety belt pretensioner. 4 Available feature. 5 The vehicle’s electrical system (including the battery), the wireless service provider’s signal and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to SYNC, and the 911 Assist feature enabled, in order for 911 to be dialed.

Lots of ways to make it yours.

Take advantage of versatile standards to make your life easier. Store often-used items within easy reach. Transport long cargo inside. Encourage smart habits like buckling up and driving at appropriate speeds. Add options to change the mood, let more sunshine in and so much more. Create the Fusion you want, just the way you want it.

- In-dash storage
- 60/40 split-fold rear seat (non-Hybrid)
- Ambient lighting\(^1\)
- MyKey\(^\circ\) owner controls
- Power tilt-and-slide moonroof\(^1\)

\(^1\)Available feature.
Create a more meaningful driving experience: Connect with Ford Custom Accessories for authentic personalization possibilities. The cost of select accessories — ordered and paid for at the time you buy or lease your Fusion — can be rolled into your monthly payment. And coverage for select accessories falls under the New Vehicle Limited Warranty that way too. See your dealer for details.

SE in Red Candy Metallic Tinted Clearcoat customized with 18" 5-spoke chrome wheels, molded splash guards, chrome door handles, smoked hood and side window deflectors, keyless entry keypad and rear decklid spoiler

QUALITY, GREEN, SAFE and SMART.

New Vehicle Limited Warranty. We want your Ford Fusion or Fusion Hybrid ownership experience to be the best it can be. Under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/50,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage—all with no deductible. Fusion Hybrid is also covered by an 8-year/100,000-mile Hybrid Limited Warranty (10-year/150,000-mile Hybrid Battery Limited Warranty in CA, CT, ME, MA, NJ, NY, RI and VT; see dealer for details). Please ask your Ford Dealer for a copy of these limited warranties.

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you’ll find the choices that are right for you at fordcredit.com.

Ford Extended Service Plan. For a purchase or lease, the Ford Extended Service Plan (ESP) gives you "Peace-of-Mind" protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for a Ford ESP, the only service contract backed exclusively by Ford and honored at all Ford Lincoln dealerships.

Genuine Ford Accessories will be warranted for whichever provides you the greatest benefit: 12 months or 12,000 miles (whichever occurs first), or the remainder of your Bumper-to-Bumper 3-year/36,000-mile New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer’s warranty. FLA are fully designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Ford Dealer for details and/or a copy of all limited warranties.
