FUSION
STYLED TO STAND OUT.

**Fusion V6 Sport**
- LED signature lighting
- Distinctive egg-crate grille
- 19” premium Tarnished Dark-painted wheels

**Fusion Energi**
- Illuminated charge port
- New SYNC® 3
- Active noise control
- 17” Luster Nickel-painted aluminum wheels

**Fusion Titanium**
- 18” machined face aluminum wheels with painted pockets
- LED headlamps
- LED fog lamps with chrome bezels

**Fusion Hybrid**
- 18” machined face aluminum wheels with painted pockets
- LED taillamps
- New rear chrome accent strip

1Available feature.
Titanium leather-trimmed interior in Ebony with available equipment.  

1 Available feature.  
2 Don’t drive while distracted. Use voice-operated systems when possible; don’t use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply.  
3 SiriusXM audio and data services each require a subscription sold separately or as a package, by SiriusXM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change.

DIAL UP EXPECTATIONS. It’s all about positive reaction. Between you and your vehicle. Approach Fusion with your Intelligent Access Key¹ and a simple touch of the driver door handle opens the way. Press the standard push-button start and the engine springs to life. Turn the nicely weighted new rotary gear shift dial to engage the gears – as well as your love for the open road. Your day is off to a great start.

The voice-activated Navigation System¹² includes a 5-year complimentary trial subscription to SiriusXM® Traffic and Travel Link® services.³ Global Positioning System (GPS) technology is combined with available 3-D mapping and provides voice-guided turn-by-turn directions. You’ll get detailed traffic information, current and forecasted weather, plus fuel station locations and prices.
**FUSION ECOBOOST**

MORE POWERFUL THAN EVER.

The Fusion engine lineup has never been stronger. A potent new 325-horsepower 2.7L EcoBoost® – exclusive to V6 Sport and the most powerful EcoBoost engine ever on Fusion – headlines the 4 Fusion engine choices, including 3 turbocharged, direct-injection EcoBoost engines. The way you engage their power has been thoughtfully redesigned as well. Shift the 6-speed SelectShift® automatic into Drive via the new rotary gear shift dial. Stop there if you want, or tap the “S” button on top. Now, you control the shift points yourself with steering wheel-mounted paddle shifters to enhance your driving fun.

*1 Horsepower and torque ratings achieved with 93-octane fuel. *2 Available feature. *3 SelectShift capability not available on 2.5L iVCT engine. *4 Actual mileage will vary.
There can only be one best. And editors at U.S. News & World Report named Fusion Hybrid “2016 Best Hybrid Car for the Money.” As it maximizes efficiency by seamlessly switching between its gas engine and electric motor, Fusion Hybrid never loses sight of its fun-to-drive nature. “Its steering is sharp and direct, and ... its handling is oriented pleasingly toward the sporty side,” says Edmunds.com. This year, software improvements helped engineers better harmonize engine speed with pedal tip-in, resulting in an even more connected feel.

Inside, the vibrant SmartGauge® with EcoGuide instrument cluster actually grows green “Efficiency Leaves” as you drive. The more efficiently you drive, the more leaves grow – giving you instant feedback. And Fusion Hybrid offers plenty of learning opportunities, as it can operate in electric mode at speeds up to 85 mph thanks to its lithium-ion battery. Plus, the Regenerative Braking System can recover 94% of the energy spent during braking and use it to help recharge the battery. Even when coming to a stop, forward thinking drives your day.
FUSION ENERGI
PLUG-IN SIMPLICITY.

Fusion Energi Plug-In Hybrid gives you the additional choice of plugging in – or not. It’s simple, convenient and no change in your routine is required. Just plug one end of the standard 120-volt convenience charge cord into your home outlet (or a Ford recommended AeroVironment™ 240-volt home charging option¹). Plug the other end into the vehicle’s illuminated charge port. Recharge in about 2.5 hours via the AeroVironment station, or 7 hours using your home outlet. To easily monitor and schedule your charging, use our MyFord® Mobile app² and website (myfordmobile.com). Both feature a charging station locator powered by PlugShare®.

As you drive, Fusion Energi decides whether to run on its electric motor alone or to turn on its gas engine as needed. It may run all-electric on short commutes – even at highway speeds. Fusion Energi has an EPA-estimated rating of 104 city MPGe,³ a gas-plus-electric driving range of 610 miles,⁴ and an all-electric driving range of 21 miles.⁴

¹ Available feature. Charge times vary. See owner’s manual for details. To begin the process, call 1-888-219-6747 or visit evsolutions.com/ford. Charging stations are available with or without full installation services by AeroVironment. ² MyFord Mobile subscription complimentary for 5 years from the vehicle sale date as recorded by the dealer. Subscription fees apply after 5 years. MyFord Mobile requires a compatible 2.5G independent cellular network. Evolving technology and cellular networks may affect future availability and functionality. Message and data rates may apply. ³ EPA-estimated rating of 104 city/91 hwy/97 combined MPGe. Actual mileage will vary. MPGe is the EPA equivalent measure of gasoline fuel efficiency for electric mode operation. ⁴ EPA-estimated rating of 43 city/41 hwy/42 combined mpg, 14-gallon fuel tank; 21 miles electric. Range calculation based on www.fueleconomy.gov. Actual range varies with conditions such as external elements, driving behaviors, vehicle maintenance and lithium-ion battery age.
STYLED TO SATISFY. With spacious room for up to 5, a carefully crafted interior welcomes all to Fusion. On Titanium, you’ll be treated to leather-trimmed, 10-way power, heated front seats with memory settings for 2 drivers. Aluminum brake and accelerator pedal covers. A leather-wrapped steering wheel. A convenient 110-volt power outlet¹ to recharge your devices. And ambient lighting in your choice of 7 hues to bring it all together.

For your listening pleasure, enjoy the sound from a well-balanced, 12-speaker Audio System from Sony. Listen to everything you love with SiriusXM Satellite Radio. Get over 150 channels including all kinds of commercial-free music, plus every major sport and the best talk, news, comedy and entertainment. And you’ll hear it all with a 6-month trial subscription to the All Access package, included with your new Fusion. So you can rock your ride, plus listen anywhere online and on the SiriusXM app.
SYNC 3
In addition to all the voice-activated benefits of SYNC® – placing and answering calls, and controlling music from your devices – you’ll love the easy-to-use interface of SYNC 3. An 8” color LCD screen displays phone, audio and navigation features. Enhanced voice recognition lets you give simple commands. A capacitive touchscreen includes a convenient swipe feature, as well as pinch-to-zoom functionality within navigation.

SYNC Connect
With a SYNC Connect® equipped Fusion, you can use FordPass® to locate your parked vehicle and remotely access features such as start, lock and unlock, and vehicle status including fuel level and approximate mileage. You can also schedule specific times to remotely start your Fusion so it’s ready to hit the road as soon as you are.

SYNC AppLink
Use your voice to control some of your favorite compatible mobile apps (like Pandora® and iHeartAuto), thanks to standard SYNC AppLink™.

Siri Seamless Integration
Bring the power of Siri® into Fusion with Siri Eyes Free®, your paired iPhone® and a long press of the voice-recognition button on the steering wheel.

Automatic Updates Over Wi-Fi
Keep SYNC 3 current with the latest software as new updates become available. All you need is a Wi-Fi® connection.

---

Available feature. *Don’t drive while distracted. Use voice-operated systems when possible; don’t use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. **SYNC Connect is an optional feature on select Fusion models and includes service for 5 years from the vehicle sale date as recorded by the dealer. FordPass is available through a free download via the App Store® or Google Play™ late availability Spring 2016. Message and data rates may apply. Service may be limited by mobile phone network coverage area. To learn more about where FordPass can take you, visit fordpass.com. ***SYNC AppLink is compatible with select smartphone platforms and requires any compatible apps to be installed and running on a capable smartphone while connected to Ford SYNC. Commands may vary by phone and AppLink software. Message and data rates may apply. ****Requires SYNC 3. **Optional Navigation System map updates cannot be received via Wi-Fi and require a separate update.
SENSES WHAT YOU CAN'T SEE. BLIS® (Blind Spot Information System) alerts you with a light in either sideview mirror if its radar sensors detect a vehicle in the corresponding blind spot. Cross-traffic alert, part of the system, notifies you with a beep and a warning light in your sideview mirror if it detects a vehicle approaching either side as you slowly back Fusion out of a parking space. Either way, BLIS with cross-traffic alert helps you aware of things that may be just out of your line of view.

ALERTS YOU TO TAKE ACTION. Pre-Collision Assist with Pedestrian Detection including collision warning, brake support and active braking fuses information from a forward-facing camera and radar technology to help in various driving situations. The system monitors the proximity of Fusion to other vehicles, and also pedestrians. If a potential collision is detected, collision warning can alert you with visible and audible signals, so you can take action. If needed, brake support will precharge and increase brake-assist sensitivity to provide full responsiveness when you do brake. And if the system determines a collision is imminent, active braking may automatically apply the brakes.

HELPS KEEP YOU CENTERED. A new Lane-Keeping System can detect lane markings and apply torque to the steering wheel if it senses your vehicle drifting unintentionally out of its lane. If needed, the Lane-Keeping System can also send gentle vibration pulses to the wheel to prompt you to steer back toward center. If it detects you've come too close to – or crossed – the markers multiple times, a Driver Alert System displays a coffee cup icon to suggest taking a break from driving.

ALLOWS YOU TO SET YOUR PACE. Adaptive cruise control with stop-and-go uses advanced radar technology to scan for slower vehicles in front of you. It can automatically adjust your vehicle's speed to maintain a preset gap from that vehicle. The system can be used at both high and low speeds, and can even follow the vehicle in front of you to a complete stop.

Titanium in White Platinum Metallic Tri-coat with available equipment. BLIS replaces standard integrated blind spot mirrors. Available feature. Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. Lane-Keeping System does not control steering. While Pre-Collision Assist with Pedestrian Detection may be especially helpful in unexpected situations, it does not replace the driver and has limitations, including nighttime, low and harsh lighting conditions, vehicles moving in a different direction, and certain weather conditions.
WHEN PARKING, THERE IS NO PARALLEL.

After just one use of its Enhanced Active Park Assist System, you’ll never go back to parking Fusion the “old-fashioned” way. Whether you’re backing into a perpendicular spot or slowing down to parallel park, ultrasonic sensors can identify a parking space that is the right size, then the system steers the vehicle into it. All you do is follow on-screen prompts, and operate the accelerator, brake and rotary gear shift dial as needed.

The system can even provide steering assistance when pulling out of a parallel spot. And in parking maneuvers, the Forward and Reverse Sensing Systems provide guidance by emitting beeping tones to alert you to objects near the front, rear or sides of Fusion. No second guessing. Much less stress.
FUSION PLATINUM
THE ULTIMATE IN REFINEMENT.

Rarer even than gold, platinum signifies ultimate luxury. One look inside and you’ll know how Fusion Platinum got its name. In addition to the standard leather-trimmed heated and cooled front seats in Medium Soft Ceramic, the instrument panel and center console are leather wrapped and stitched, while leather also wraps the door armrests, the center console armrest and the heated steering wheel.

Every driver-assist technology Fusion offers is standard on Platinum. As is a Navigation System with SiriusXM® Traffic and Travel Link® to help guide you. Outside, Platinum distinction is marked by a Magnetic-painted sport-style grille, a power moonroof overhead, and 19” polished aluminum wheels¹ at the corners.
Introducing V6 Sport! One hot new Fusion. Ready to greet the street with 325 horsepower. Its distinct appearance is backed by a new 2.7L EcoBoost® V6 engine, the most powerful ever offered on Fusion, and a paddle-shifted 6-speed SelectShift® automatic transmission. To handle all that thrust, a modified sport-tuned suspension and standard intelligent all-wheel drive (AWD) can combine to deliver a taut ride, precise cornering and extreme road-holding finesse.

To help you adapt quickly to changing road conditions, V6 Sport features continuously controlled damping (CCD) with new pothole detection. 12 different sensors in the system read the road – and your driving input – every 2 milliseconds, then quickly adjust the firmness and damping at all 4 corners to help Fusion be in better harmony with the road surface. If a pothole is detected, the system reacts so quickly that it can adjust the shock absorbers to help reduce the severity of impact to vehicle occupants. Hit the Sport setting to tighten suspension tuning, firm up steering calibration, and enjoy a more powerful engine sound inside the cabin – all while feeling more connected to the pavement.
Keep your poise through the corners, even under acceleration, thanks to Torque Vectoring Control. By applying slight braking force to the inside front wheel as needed to help more torque reach the road, this standard system helps Fusion stay firmly planted. To further enhance Fusion performance, there’s Intelligent all-wheel drive (AWD). This fully automatic system constantly monitors and predicts traction, transferring power between the front and rear wheels as needed, typically before wheelslip can even occur. It’s designed to effortlessly improve handling characteristics and help maximize traction.

Whenever outside light levels dictate, automatic headlamps turn on to help keep the road ahead well lit. At the slightest hint of moisture, rain-sensing wipers activate to help keep the windshield clear. And new this year, the standard Individual Tire Pressure Monitoring System allows you to see individual pressure in each tire. Not only will you be notified if any tire’s pressure is low, but the system will tell you how low.

1Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions. 2Available feature. 3Excludes available spare.
CONFIDENT DESIGN. COMMANDING PERFORMANCE.

### Standard Features

**Mechanical**
- Brakes: Power 4-wheel disc Anti-Lock Brake System (ABS)
- Electric-assist parking brake
- Front and rear stabilizer bars
- Steering: Electric power-assisted
- Suspension: Front: independent MacPherson strut, Rear: independent integral link

**Torque Vectoring Control**

**Driver-Assist Technology**
- Autolamp
- Hill start assist

**Interior**
- 4-way adjustable front head restraints
- 60/40 split fold-flat spring-assisted rear seat
- Center console: Armrest and storage
- Ignition: Push-button start
- Illuminated, lockable glove compartment
- Lighting: Dome light with map lights
- Locks: Power
- Power outlets: 12-volt powerpoints (3)
- Rotary gear shift dial
- Steering wheel-mounted cruise, audio and 5-way controls
- Visors: Driver and front-passenger sun with illuminated vanity mirrors
- Windows: Power with global open/close and one-touch-up/-down feature

**Exterior**
- Configurable daytime running lamps
- Easy Fuel® capless fuel filler
- Grille: Bright upper surround
- Rear-window defroster
- Solar-tinted glass
- Windshield wipers: Speed-sensitive

**Safety & Security**
- Airbags: Personal Safety System™ for driver and front passenger includes dual-stage front airbags, safety belt pretensioners, safety belt energy-management retractors, safety belt usage sensors, driver’s seat position sensor, crash severity sensor, restraint control module and Front-Passenger Sensing System
- Airbags: Driver and front-passenger knee
- Airbags: Front-seat side
- 3-point safety belts for all 5 seating positions
- AdvanceTrac® electronic stability control with brake-actuated traction control
- Belt-Minder® front safety belt reminder
- Child-safety rear door locks
- Emergency in-trunk release handle
- Illuminated Entry System
- Individual Tire Pressure Monitoring System (excludes spare, if equipped)
- LATCH: Lower Anchors and Tether Anchors for Children
- MyKey™
- Perimeter alarm
- Rear view camera
- SecuriLock® Passive Anti-Theft System
- SOS Post-Crash Alert System™

---

1 Always wear your safety belt and secure children in the rear seat.
If the vehicle must be driven in these conditions, Ford recommends using all-season or snow tires. Restrictions may apply. See your dealer for details.

¹Ford Licensed Accessory. ²Available on Fusion Energi only. ³Available on Fusion and Fusion Hybrid only.

---

**New Vehicle Limited Warranty.** We want your Ford Fusion ownership experience to be the best it can be. Under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/60,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage—all with no deductible. Unique electric components are covered during the Hybrid/Electric Unique Component Coverage, which lasts for 8 years or 100,000 miles, whichever occurs first. Please ask your Ford Dealer for a copy of this limited warranty.

**Roadside Assistance.** Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle or need towing. Your Ford Dealer can provide complete details on all of these advantages.

**Ford Credit.** Get the ride you want. Whether you plan to lease or finance, you’ll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.

**Ford Protect Extended Service Plans.** Whether you purchase or lease your Ford vehicle, insist on genuine Ford Protect extended service plans. Ford Protect has a variety of plans to give you peace-of-mind protection whether you want vehicle component or maintenance coverage. Plus, they are fully backed by Ford and honored at all Ford dealerships in the U.S., Canada and Mexico. When you visit your dealer, insist on genuine Ford Protect extended service plans.

**Insurance Services.** Get Ford Motor Company quality in your auto insurance. Our program offers industry-leading benefits and competitive rates. Call 1-877-367-3847, or visit us at fordvip.com for a no-obligation quote. Insurance offered by American Road Services Company (in CA, American Road Insurance Agency), a licensed agency and subsidiary of Ford Motor Company.

**Ford Original Accessories.** They’re warranted for whichever provides you the greatest benefit: 24 months/unlimited mileage, or the remainder of your Bumper-to-Bumper 3-year/36,000-mile New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer’s warranty. FLA are designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Ford Dealer for details and/or a copy of all limited warranties.
