Introducing the 2011 Super Duty.®

That’s right. AMERICA’S MOST CAPABLE PICKUP is now even better. Tested-tough new powertrains – designed, engineered and built by Ford – give Super Duty class-leading fuel economy; plus best-in-class diesel horsepower and torque. Best-in-class maximum towing and payload capacities get the job done when no one else can. Standard trailer sway control helps increase your towing confidence. It’s no wonder F-Series has been America’s best-selling truck for 33 years running. And this rugged workhorse is built to make it a whole lot more.

1Based on Ford drive-cycle tests of comparably equipped 2011 Ford and 2010/2011 competitive models.
2Class is Full-Size Pickups over 8500 lbs. GVWR. Based on comparison of 2011 MY competitive models. GVWR and GCWR when properly equipped.
Already proven – beyond any other.

The new 2011 Super Duty® endured more torture testing than any Ford Truck before it – including over 10 million cumulative miles on the MOST TESTED POWER STROKE® DIESEL ENGINE EVER. A world-class team put it through a groundbreaking battery of computer simulations, lab and real-world tests – running it for THOUSANDS OF HOURS ON END. In extreme conditions. Scorching heat. Bitter cold. Loaded to the max. Up the steepest grades. All to confirm that this truck is far more than the sum of its parts.

Super Duty is built to be the best – bringing you the BEST DIESEL AND GAS FUEL ECONOMY of any truck in its class¹ – plus lots of other capabilities and features only Ford can deliver.

**BEST IN CLASS**
- Max. Horsepower and Torque
- Max. Conventional Towing: 17,500 lbs.²⁻³
- Max. 5th-Wheel Towing: 24,400 lbs.²
- Max. Payload: 7,070 lbs.³
- Fuel Economy: Diesel and Gas

**CLASS EXCLUSIVES**
- Live-Drive Power TakeOff (PTO)⁴
- 5th-Wheel/Gooseneck Trailer Tow Prep Package⁴
- Standard trailer sway control on both SRW and DRW
- LCD Productivity Screen⁴
- Standard Safety Canopy® System
- Ford Work Solutions™
- Tailgate Step⁴

¹Class is Full-Size Pickups over 8,500 lbs. GVWR. Based on Ford drive-cycle tests of comparably equipped 2011 Ford and 2010/2011 competitive models. ²Available early 2011. ³When properly equipped. 17,500 on F-350 DRW and F-450, 24,400 on F-450 Pickup. 7,070 on F-350 DRW Regular Cab 4x2. ⁴Optional.
Ford 6.7L Power Stroke® V8 Turbo Diesel.

Designed, engineered and built by Ford, this heavy-duty diesel helps Super Duty® deliver up to a **20% IMPROVEMENT IN FUEL ECONOMY** over the previous model, making it the best in its class! It also gives you best-in-class horsepower and torque. We’re talking **400 HP** and a massive **800 LB.-FT. OF TORQUE**. That’s a game-changing combination. And this **B20-CAPABLE** engine has already proven itself in over 10 million miles of cumulative testing. It’s the **MOST TESTED POWER STROKE DIESEL ENGINE EVER**.

1Based on Ford drive-cycle tests of comparably equipped 2011 Ford and 2010/2011 competitive models.
Ford 6.2L V8 Gas Engine.

As the standard engine, this free-breathing Ford-built machine helps Super Duty® achieve up to 15% BETTER FUEL ECONOMY than its predecessor. It also delivers best-in-class 385 HORSEPOWER and 405 LB.-FT. OF TORQUE. The design features large valves and a large-bore, shorter-stroke approach – proven technologies inspired by Ford racing – that help improve its breathing.

And you can rest assured this all-new E85-CAPABLE engine is ready to get to work. The Ford powertrain team designed, engineered, built and torture-tested it themselves.

\[ \text{Based on Ford drive-cycle tests of comparably equipped 2011 Ford and 2010/2011 competitive models.} \]
Blending the control of a manual with the convenience of an automatic, the SelectShift Automatic allows you to use its FULL MANUAL MODE to lock the torque converter and hold your chosen gear. Or utilize the PROGRESSIVE RANGE SELECT mode to lock out upper gears when the truck is heavily loaded or when towing on grades. Your options are open.

Designed, engineered and built by Ford, this Heavy-Duty transmission is filled with innovations, including an ENHANCED TOW/HAUL MODE that provides better control while hauling heavy loads or towing trailers, especially when descending steep grades. And it’s all been proven over 10 MILLION MILES OF CUMULATIVE TESTING.
Special Trailer Sway Control uses a yaw motion sensor to monitor the motions of your truck and detect trailer sway. When trailer sway is detected, the system can automatically react by selectively braking, helping you maintain control of both the truck and the trailer. Super Duty is the only truck in its class with this system standard on both SRW and DRW models.

Super Duty reigns supreme with best-in-class towing capabilities, class-exclusive features and available systems like trailer sway control for ultimate towing confidence. A single touch of the brake pedal in tow/haul mode activates the integrated diesel engine-exhaust braking to help improve control with less wear and tear on the brakes and transmission.

2011 Super Duty®

Best-in-Class Max. Towing
Conventional: 17,500 LBS.
5th Wheel: 24,400 LBS.

Standard Trailer Sway Control uses a yaw motion sensor to monitor the motions of your truck and detect trailer sway. When trailer sway is detected, the system can automatically react by selectively braking, helping you maintain control of both the truck and the trailer. Super Duty is the only truck in its class with this system standard on both SRW and DRW models.

1When properly equipped. 2Available early 2011. 3Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.
Ford has everything you need to make towing heavy loads easy including smart features like **HILL START ASSIST**, which helps prevent you from rolling back on a grade by momentarily maintaining brake pressure until the engine delivers enough torque to move the truck up the hill. Whether heading up an incline in Drive or in Reverse, you’re covered.

**A FACTORY-INSTALLED 5TH-WHEEL/GOOSENECK TRAILER TOW PREP PACKAGE** offers you the strength of an under-the-bed frame crossmember and maintains a flat cargo bed floor. This patent-pending system is fully covered by a Ford Warranty, and is compatible with the Ford Custom Accessory 5th-Wheel and Gooseneck Hitch Kits by Reese.*

**B FACTORY-INSTALLED 5TH-WHEEL AND GOOSENECK HITCH KITS** (Gooseneck shown) are available to get your new Super Duty® trailer-ready. See your Ford Dealer for complete details on these Ford Custom Accessories.

**C CLASS-EXCLUSIVE POWERSCOPE™ TRAILER TOW MIRRORS** adjust, fold and telescope almost 3 inches at the touch of a switch; this option includes integrated clearance lights and turn signals, plus heated glass with manually adjustable spotter mirrors.

Conventional trailer hookups are easy with the **REAR VIEW CAMERA** option. Just shift into reverse, and a full-color image from the tailgate-mounted camera is displayed in your rearview mirror or on the available Navigation System’s 6.5-in. screen (shown).

The available factory-integrated **TRAILER BRAKE CONTROLLER** uses braking input, vehicle speed and ABS logic to balance the performance of the truck brakes and electric trailer brakes. Compatible with certain electric and electric-over-hydraulic trailer brake systems.

*See your dealer for Limited Warranty details. *Available with 8-ft. box only. *Trailer brake controller verified to be compatible with electrically actuated drum brakes and certain electric-over-hydraulic brake systems. See your Ford Dealer for details.
Redesigned Interior With All-New LCD Productivity Screen.

The new 2011 Super Duty® combines smart design with high-tech features to help make your life easier, from the **REDESIGNED SEATS** with exclusive Ford active comfort contours and a standard lumbar support for the driver to the available factory-installed **REMOTE START**.

The available **LCD PRODUCTIVITY SCREEN** (below) displays engaging, easy-to-use menus to help you track fuel usage, explore unique truck applications and even make towing decisions. You can also use it to limit your truck’s top speed with the available class-exclusive **MyKey®** owner controls feature. Steering wheel-mounted controls put it all comfortably within reach. And the steering column now **TILTS AND TELESCOPES** – standard on every 2011 Super Duty.
Class-Leading Storage Solutions And Much More.

With its collection of available technologies, BEST-IN-CLASS INTERIOR STORAGE possibilities, including the MOST LOCKABLE STORAGE (up to 2.4 cu. ft.) and the most power access available in the class (up to 6 locations), Super Duty® is built to help you take care of business. A steadfast favorite of those determined to work regardless of the weather, the available RAPID-HEAT SUPPLEMENTAL CAB HEATER\(^1\) helps raise the cabin temp so you and your crew can stay active even when it’s downright frigid outside.

A LOCKABLE UNDER-SEAT STORAGE includes a removable partition and a 12-volt powerpoint on the driver’s side; included with the rear bench on XLT, LARIAT and KING RANCH® Crew Cab.

B BIG CENTER CONSOLE is a versatile option that provides lockable storage space you can configure in over 70 different ways – hang your files, stow your laptop, even charge your gadgets out of sight with one of its two 12-volt powerpoints.

FRONT LOCKABLE UNDER-SEAT STORAGE with a 12-volt powerpoint is included on the available 40/20/40 split front seat on XLT and LARIAT.

110-VOLT POWER INVERTER is conveniently located on the back of the available center console.

DUAL-ZONE ELECTRONIC AUTOMATIC TEMPERATURE CONTROL, standard on LARIAT and KING RANCH, combines with the available HEATED AND COOLED FRONT SEATS to help increase your comfort in all climates.

\(^1\)Optional on models equipped with the 6.7L Power Stroke® V8 Turbo Diesel engine.
**A** Dual Alternators with 357-AMP Rating
are optional with the 6.7L Turbo Diesel engine; they provide 11.5% more peak amperage than the previous generation.

**B** Coil-Spring Front Suspension is part of a heavy-duty, independent Twin I-Beam setup on 4x2s and a rugged twin-coil monobeam setup on 4x4s.

**C** Revised Steering System on F-250 and F-350 4x2s is symmetrical left to right for more precise response with better on-center steering and control.

**D** Solid Front Axle with Manual Locking Hubs is a tried-and-true 4x4 design that delivers excellent articulation, dynamic ground clearance and rugged reliability.

**E** Durable Transfer Case Skid Plate utilizes high-strength steel for better off-road protection with less weight; part of the optional FX4 OFF-ROAD Package.

**F** Standard 4-Wheel Anti-Lock Brake System (ABS) uses vented rotors and dual-piston calipers for consistent stops, even with the heaviest loads.

**G** Ride and Handling Improvements include optimized rear leaf springs and spring rates, plus adjustments to the internal valving in all pickup shock absorbers, offering a more refined ride experience with best-in-class towing and payload capability.

**Enhanced Off-Road Capability.**

An indisputable fact: There are more F-Series trucks on the road with 250,000+ miles than any other brand. So you can rest assured the new 2011 Super Duty® is built on a solid foundation, one that’s designed to meet most any challenge and conquer most any terrain. At the push of a button, available Hill Descent Control™ helps maintain the speed of the truck on steep declines. It allows you to concentrate on driving rather than modulating the brakes, increasing your off-road confidence.

---

1SRW models with optional FX4 OFF-ROAD Package only.
Hardworking people need a hardworking truck. The new 2011 Super Duty® gives its all to every job with **BEST-IN-CLASS PAYLOAD** capability of up to 7,070 lbs., plus equipment to help you load, access and manage that payload. When your reputation’s on the line, your truck’s got to deliver.

**BEST-IN-CLASS MAX. PAYLOAD: 7,070 LBS.**

- **CLASS-EXCLUSIVE TAILGATE STEP** option stows right in the tailgate; includes flip-up grab bar and skid-resistant step.
- **TOUGHBED® FACTORY-INSTALLED SPRAY-IN BEDLINER** (below) is an optional industrial-grade synthetic lining applied directly to the bed for durable, long-lasting protection.
- **FORD WORK SOLUTIONS™ CABLE LOCK** by Master Lock® (below) makes it easy to secure your gear. The optional 10-ft. vinyl-coated, retractable, braided-steel cable spoils out of a rugged case mounted right in your cargo box.
- An optional **CLASS-EXCLUSIVE STOWABLE BED EXTENDER** lets you haul with the tailgate down or corral smaller loads with it up. When not in use, the extender stows conveniently to the sides – out of your way.

1When properly equipped. F-350 DRW Regular Cab 4x2.
TECHNOLOGIES that give your team the ADVANTAGE.

Cutting-Edge Mobile Office.

Only the toughest name in trucks could assemble this all-star lineup of SMART TOOLS for your tough jobs.

At the heart of it all is the available INTERNET-CAPABLE IN-DASH COMPUTER with Garmin® navigation, hands-free calling and a convenient touch screen with wireless keyboard. From spreadsheets to searching the web, it helps tackle your workload and ease your day.

Take advantage of the available CREW CHIEF™ fleet management system from Microlise™ to track your vehicles and keep them in shape with key diagnostic/informational maintenance reports! This beneficial system can be accessed from the Ford Work Solutions™ In-Dash Computer, or any computer connected to the Internet.

Like to save time and money on the job? The available TOOL LINK™ system can help. Using Radio Frequency ID (RFID) technology® from DeWALT,® Tool Link helps track your tools before and after each job.®

VOICE-ACTIVATED FORD SYNC® is an award-winning, available system that works with your paired Bluetooth®-enabled mobile phone and your digital media player. It provides hands-free calling, plays music, and delivers Vehicle Health Reports and 911 Assist™. With the touch of a button and voice commands, SYNC with TRAFFIC, DIRECTIONS AND INFORMATION services provides turn-by-turn directions, personalized traffic alerts and more.®

SYNC with TRAFFIC AND INFORMATION services provides turn-by-turn directions, personalized traffic alerts and more.®

SYNC My Ride.com has the latest details. SYNC. Say the word.

Ford Work Solutions include Ford Licensed Accessories. See dealer for limited warranty details.

1Available on XL and XLT models only. Some features are unavailable while driving. Not available with SYNC or SIRIUS Satellite Radio. See your dealer for details.

2Service fee required.® Tool Link system cannot read tagged items stored in metal tool boxes.® Traffic updates available in select markets. Some features are unavailable while driving. Service available in the 48 contiguous states and D.C. SIRIUS, XM and all related marks and logos are trademarks of SIRIUS XM Radio Inc. 1 Under normal driving conditions with routine fluid and filter changes.
2 Final-stage manufacturer must supply control switches.
3 Vehicles with standard 2.5-in. receiver hitch are also equipped with a 2.0-in. reducer sleeve.
4 Always wear your safety belt and always deactivate the passenger airbag when using a rear-facing child-safety seat in Regular Cab and SuperCab models.
5 Always wear your safety belt and always secure children in the rear seat in Crew Cab models.

New Vehicle Limited Warranty. We want your Ford F-Serie Super Duty® ownership experience to be the best it can be. So under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/50,000-mile safety restraint coverage, and 5-year/ unlimited-mile corrosion (perforation) coverage – all with no deductible. The Power Stroke diesel engine gets 5-year/100,000-mile Warranty Coverage. Please ask your Ford Dealer for a copy of this limited warranty.

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle, or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you’ll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.

Ford Extended Service Plan. For a purchase or lease, the Ford Extended Service Plan (ESP) gives you “Peace-of-Mind” protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for a Ford ESP, the only service contract backed exclusively by Ford and honored at all Ford dealerships.

Comparisons based on 2011 competitive models (class is Full-Size Pickups over 8,500 lbs. GVWR), publicly available information and Ford certification data at time of release. Some features discussed may be optional. Vehicles throughout this PDF are shown with optional and aftermarket equipment. Features shown may be offered only in combination with other options or subject to additional ordering requirements or limitations. Dimensions and capacity ratings shown may vary due to optional features and/or production variability. Following publication of the catalog, certain changes in standard equipment, options and the like, or product delays may have occurred which would not be included in these pages. Your Ford Dealer is the best source for up-to-date information. Ford Division reserves the right to change product specifications at any time without incurring obligations. Body manufacturers are responsible for compliance certification of the completed vehicle. The Ford New Vehicle Limited Warranty and any government certification made by Ford shall cover only the vehicle as manufactured by Ford and shall not extend to any addition, modification or change of or to the vehicle by the Ford Authorized Pool Account.
STANDARD FEATURES

XL
Includes all standard features, plus:

MECHANICAL

XLT Premium Package includes XLT Interior Package, Chrome Package, SYNC, LCD productivity screen, auto-dimming rearview mirror, compass, fog lamps and steering wheel-mounted audio controls (SRW SuperCab and Crew Cab only)

CLEANEST SUPER DUTY® DIESEL EVER

The Ford 6.7L Power Stroke® V8 Turbo Diesel engine uses industry-proven technology and innovative Ford strategies to meet the latest federal emissions standards to reduce nitrogen oxide (NOx) levels by more than 80% compared to previous regulations.

COMBUSTION EFFICIENCY: The process begins in the engine, where combustion is optimized to help reduce emissions from the start.

CLEANING AND HEATING: When the exhaust stream enters the diesel oxidation catalyst (DOC), the hydrocarbons in it are converted and oxidized into water and carbon dioxide. Then things start heating up.

KNOCKING OUT THE NOx: Next, the exhaust stream is dosed with diesel exhaust fluid (DEF), a mixture of urea and water. In the process, the NOx in the exhaust stream is converted into inert nitrogen and water.

SCRUBBING AWAY THE SOOT: Finally, the diesel particulate filter (DPF) traps any remaining soot, which is then periodically burned away.

DOING YOUR PART: The fluid in the 5-gallon DEF reservoir is approximately consumed over the course of each oil change interval. To help make it easy for you to refill, the blue DEF fill cap is located right next to your green diesel fuel cap. The message center alerts you when there's about 800 miles worth of DEF remaining. Ford-approved DEF can be purchased from your Ford Dealer or other authorized retailers.
FORD CUSTOM ACCESSORIES

To learn more about Ford Custom Accessories and to buy them online, visit fordaccessories.com.

Genuine Ford Accessories will be warranted for whichever provides you the greatest benefit: 12 months or 12,000 miles (whichever occurs first), or the remainder of your Bumper-to-Bumper 3-year/36,000-mile New Vehicle Limited Warranty. Contact your local Ford Dealer for details and a copy of the limited warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer’s warranty. Ford Licensed Accessories are fully designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Ford Dealer for details regarding the manufacturer’s limited warranty and/or a copy of the FLA product limited warranty offered by the accessory manufacturer.

### Engine Options
- **Certified to SAE J1349.**
- **Under 10K GVWR.**
- **Over 10K GVWR.**

## MECHANICAL

### FRONT SUSPENSION
- **Type**: Twin-I-Beam (F-250/F-350 4x2); solid Twin-Coil Monobeam axle (F-250/F-350 4x4 and 4x4)
- **Axle (rating @ ground)**: 5,250 lbs. (F-250/F-350 4x2); 6,000 lbs. (F-250/F-350/F-450 4x4)
- **Springs**: Coil
- **Shock absorbers**: 1.38” gas type
- **Stabilizer bar**: Standard

### REAR SUSPENSION
- **Type**: Solid axle
- **Axle (rating @ ground)**: 6,200 lbs. (F-250); 7,280 lbs. (F-350 SRW); 9,500 lbs. (F-350 DRW); 9,500 lbs. (F-450)
- **Springs**: Leaf
- **Shock absorbers**: 1.38” gas type
- **Stabilizer bar**: Standard on DRW pickup; optional in package on SRW pickup

### STEERING
- **Assist**: Power
- **Overall ratio**: 20.49:1 (F-250/F-350 4x2); 20.41:1 (F-250/F-350 4x4); 20.41:1 average (F-450)

### BRAKES
- **Type**: 4-wheel vented-disc ABS (standard)
- **Front (rotor diameter)**: 13.66" (F-250/F-350); 14.53" (F-450)
- **Rear (rotor diameter)**: 13.39" (F-250/F-350); 15.35" (F-450)

### WHEELS
- **Type**: Steel or aluminum
- **Size**: 17" (F-250/F-350); 17" (F-450)
- **Number of studs**: 8
- **Bolt-circle diameter**: 6.7" (170-mm) SW; 7.87" (200-mm) F-350 DRW; 7.87" (200-mm) F-450
