AMERICA’S MOST CAPABLE PICKUP IS GOING PLATINUM.

Introducing the all-new 2013 Super Duty® PLATINUM: heavy-duty capability blended with an unprecedented level of sophistication. From its uniquely styled premium leather-trimmed interior with heated steering wheel to its voice-activated SYNC® with MyFord Touch® PLATINUM may just be the most luxurious Super Duty ever. Best-in-class¹ horsepower, torque and fuel economy² are yours with the gas and diesel Built Ford Tough® powertrains. Best-in-class maximum payload and towing capabilities³ and standard trailer sway control mean Super Duty helps you get the job done when no one else can. No wonder F-Series has been America’s best-selling truck for 35 years. Go further in a 2013 Super Duty.

¹Class is Full-Size Pickups over 8,500 lbs. GVWR vs. 2012/2013 competitors. ²Based on Ford drive-cycle tests of comparably equipped 2011/2012 Ford and 2011/2012 competitive models. ³When properly equipped. Vehicles throughout this brochure may be shown with optional and aftermarket upfit equipment.
This Super Duty® has endured more torture testing than any previous generation of Ford Truck – including over 10 million cumulative miles on the most tested Power Stroke® diesel engine ever. A world-class team put this truck through a groundbreaking battery of computer simulations, lab and real-world tests, running it for thousands of hours on end in extreme conditions. Scorching heat. Bitter cold. Loaded to the max. Up the steepest grades. All to confirm that it is far more than the sum of its parts.

Super Duty is built to be the best, most capable truck in its class,1 bringing you the best diesel and gas fuel economy,2 plus max. capabilities and lots of other features only Ford can deliver. With the most configurations of any truck in its class, there’s a Super Duty just right for you and your work.

**Best in Class**
- Max. Horsepower and Torque: Diesel and Gas
- Max. Conventional Towing: 18,500 lbs.³
- Max. 5th-Wheel Towing: 24,700 lbs.³
- Max. GCWR: 33,000 lbs.³
- Max. Payload: 7,260 lbs.³
- Fuel Economy: Diesel and Gas

**Class Exclusive**
- 5th-Wheel/Gooseneck Trailer Tow Prep Package⁴
- Standard Trailer Sway Control on both SRW and DRW
- Hill Descent Control™
- Tailgate Step⁺
- Cable Lock by Master Lock®
- LCD Productivity Screen⁴
- Standard MyKey®
- Standard Safety Canopy® System
- Live-Drive Power Take-Off (PTO)⁴

¹Class is Full-Size Pickups over 8,500 lbs. GVWR vs. 2012/2013 competitors. ²Based on Ford drive-cycle tests of comparably equipped 2011/2012 Ford and 2011/2012 competitive models. ³When properly equipped. ⁴Available feature. ⁵Ford Licensed Accessory. See your dealer for limited warranty details.
**DIESEL BEATS THE COMPETITION 3 TIMES OVER.**

Best-in-class horsepower, torque and fuel economy. The 6.7L Power Stroke® V8 Turbo Diesel gives you all 3. With this advanced engine, Super Duty® delivers 400 hp, 800 lb.-ft. of torque, and up to a 20% improvement in fuel economy over the previous generation, making it the best in its class. Designed, engineered and built by Ford, the 6.7L features many innovative details including aluminum cylinder heads with precision dual water jackets that help minimize weight and maximize cooling. It's also the most tested Power Stroke diesel ever. This B20-capable engine has proven itself in over 10 million miles of cumulative testing under extreme conditions from 120°F scorching heat to −40°F bone-chilling cold. It’s Built Ford Tough.®

Cleanest Super Duty diesel ever. This engine generation utilizes industry-proven technology and innovative Ford strategies to meet the latest federal emissions standards – reducing nitrogen oxide (NOx) levels by more than 80% compared to the previous-generation diesel. For your part, just watch for a low diesel exhaust fluid (DEF) alert in the vehicle’s message center, then locate the blue DEF fill cap and replenish the DEF supply. The reservoir holds 5 gallons of Ford-approved DEF, which can be purchased from your Ford Dealer or other authorized retailers.

Delivers maximum power quickly. The diesel engine’s class-exclusive single-sequential turbocharger features the compact, efficient design of a dual-sided compressor wheel.

Powers upfits anytime the engine’s running. Whether you’re in motion or at a complete stop, you can power your upfits with the diesel and our class-exclusive live-drive power take-off (PTO) provision. It keeps the job going with an output gear linked directly to the engine crankshaft.

**Standard TorqShift® 6-speed SelectShift Automatic.** This rugged transmission is also designed, engineered and built by the Ford powertrain team. Its torque converter includes low-speed lockup capability (down to 900 rpm), which enables the engine to run efficiently at lower rpm. The high-strength sinter-metal carrier, with its patented Ford rocker one-way clutch, easily handles the extreme low-end torque of the diesel engine, as well as the high speeds of the gas engine. Plus, a high-capacity, high-efficiency fluid filter extends your fluid- and filter-change intervals up to 150,000 miles.

---

GAS OUTDOES ITS RIVALS TOO.

As the standard engine on F-250/F-350, the free-breathing 6.2L V8 helps Super Duty® achieve up to 15% better fuel economy than the previous generation’s base engine, making it the best in its class? This state-of-the-art Ford built powerhouse also generates best-in-class 385 hp and 405 lb.-ft. of torque! Rest assured, it’s ready for work. The Ford powertrain team designed, engineered, built and torture tested it themselves. New for 2013, an extra-heavy-duty alternator3 rated at 200 hardworking amps is standard on all LARIAT, KING RANCH® and PLATINUM models equipped with the 6.2L.

**Produces significant low-rpm torque.** The stiff SOHC valvetrain with roller-rocker shafts also enables an intake- and exhaust-port layout that optimizes airflow.

**Provides extreme durability.** The engine block features reliable cast-iron construction with 4-bolt main bearing caps, including 2 additional cross bolts.

**Stays cool under pressure.** The underside of the cast-aluminum pistons are sprayed by oil from the piston-cooling jets to keep them cool under extreme operating conditions.

**Combines with 20" wheels on 4x4s.** F-250/F-350 LARIAT, KING RANCH and PLATINUM 4x4 SRW models can be equipped with the 6.2L and 20" wheels.3

**Runs on alternative fuels with ease.** In addition to their standard E85 capability, 6.2L F-250/F-350 models can be upfitted to run on your choice of compressed natural gas (CNG)3 or liquefied petroleum gas (LPG).3 See your dealer for ordering details. Purchasing a Super Duty upfitted to run on either of these clean-burning fuels may help you qualify for state incentives related to alternative-fuel use, infrastructure or vehicles. Go to www.afdc.energy.gov/afdc/laws for more details.

---

1 405 lb.-ft. of torque and 385 hp, 10,000 lbs. GVWR and under. 397 lb.-ft. of torque and 316 hp, 10,001 lbs. GVWR and over.

**KEEPS YOU CONNECTED.**

**SYNC. Say the word.**

No more searching for your phone. No device on your ear. Once paired, voice-activated Ford SYNC®认识到 your phone and downloads your contacts to support voice calling. It also plays music from your phone, MP3, USB or iPod®.

Just touch a button on the steering wheel and say things like “Call: Kevin,” or “Play playlist: Country.” SYNC also offers 911 Assist® and helpful Vehicle Health Reports. Available on XL and XLT, SYNC AppLink™ lets smartphone users control Pandora®, iHeartRadio®, Stitcher Smart Radio™ and select other apps by voice too. Personalize your SYNC experience at ford.com/sync.

**Increase your productivity.**

Engaging, easy-to-use menus on the LCD productivity screen (located in the gauge cluster) help you track fuel usage, explore unique truck applications including the class-exclusive off-road display, and even make towing decisions. With class-exclusive MyKey®, you can also use this screen to limit your truck’s top speed and set smart reminders for different drivers. Steering wheel-mounted controls put it all comfortably within reach.

1 Available feature. 2 Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Not all features are compatible with all phones. 3 SYNC AppLink is available on select models and compatible with select smartphone platforms. Commands may vary by phone and AppLink software. Not available with MyFord Touch®.
PERSONALIZES YOUR CONTROL.

For ultimate authority over your phone, entertainment, navigation and climate, the 2013 Super Duty® introduces voice-activated SYNC® with MyFord Touch®. This system includes an 8” LCD touch screen, the LCD productivity screen in the gauge cluster, a 110-volt power outlet on the instrument panel, a closable media hub, and with an activated SYNC Services account you get business searches, turn-by-turn driving directions, local movie times and more. Operate the system with simple voice commands, by touching the 8” screen, or by using the knobs and buttons just below the screen.

A 12-volt powerpoint inside the media hub conveniently recharges your phone or other electronics while you store them out of sight. Creating a Wi-Fi® hotspot for your passengers is as easy as connecting a smartphone or plugging a mobile broadband modem into one of the dual USB ports. When in Park, you can even connect a game console or camcorder to the MyFord Touch media hub.

The system recognizes literally thousands of voice commands – everything from “Listen to text message” to “5-Day weather forecast.” So you can keep both hands on the wheel and your eyes on the road.

Available feature. Driving while distracted can result in loss of vehicle control. Only use SYNC/MyFord Touch/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. SYNC Services varies by trim level and model year and may require a subscription. Traffic alerts and turn-by-turn directions available in select markets. Message and data rates may apply. Requires in-vehicle USB mobile broadband connection, PAN-supported mobile device or proximity to an outside wireless hotspot.
Masters the Heaviest Loads.

Super Duty® reigns supreme with the best maximum conventional and 5th-wheel towing capabilities in its class, plus exclusive features and available systems like trailer sway control to help give you ultimate towing confidence. When you're negotiating an incline in Drive or in Reverse, standard hill start assist helps prevent the truck from rolling downhill by momentarily maintaining brake pressure until the engine delivers enough torque to move it uphill. With the diesel powertrain, integrated engine-exhaust braking helps improve your grade descent control with less wear and tear on the brakes and transmission. It's the kind of functionality you'll really appreciate when you're hauling a heavy load or towing a trailer, and especially when you're descending steep grades.

Helps you keep it in line. Our standard trailer sway control uses a yaw motion sensor to monitor the motions of your truck and detect trailer sway. It can automatically react when sway is detected by selectively braking to help you maintain control of both the truck and the trailer. Super Duty is the only truck in its class with this system standard on both SRW and DRW models.

1When properly equipped. 2Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.
HITS THE GROUND TOWING.

Your new Super Duty® can be ready for heavy-duty towing the moment you take delivery. Our factory-installed 5th-Wheel/Gooseneck Trailer Tow Prep Package¹ works with factory-installed Ford Custom Accessory 5th-Wheel and Gooseneck Hitch Kits² by Reese® (Gooseneck shown) to get you towing in no time. Plus, our equipment gives you the strength of an under-the-bed-frame crossmember (shown) and the utility of a flat cargo bed floor. PowerScope® trailer tow mirrors² (shown) and our SelectShift Automatic® transmission with its progressive range select and full manual modes are just a few of the invaluable towing tools you’ll only find on Super Duty.

Prompts to check your setup. The LCD productivity screen⁰ offers you a pre-towing checklist. It can also store settings and information on different trailers that you tow.

Helps you line it up. With the rear view camera, you just shift into Reverse and a full-color image of what’s behind the truck is displayed in your rearview mirror or on the 8" MyFord Touch® screen (shown).

Makes connecting easy. Plug in your trailer wiring while standing upright with our class-exclusive in-bed 7-pin connector, part of the 5th-Wheel/Gooseneck Trailer Tow Prep Package¹.
OUT-HAULS THEM ALL.

Super Duty® fully supports your work ethic with the best maximum payload capability in the class! Plus, it offers all the right tools to make loading, accessing and managing your payload as easy as possible. A torsion spring in the standard tailgate assist feature minimizes the effort required to open and close the tailgate. With our class-exclusive tailgate step (shown), you just open the tailgate, drop down the skid-resistant step and grab the flip-up bar for easy access to the bed. Plus, our AdvanceTrac with class-exclusive RSC (Roll Stability Control) offers peace of mind you won’t find with any other truck in the class. Smart features make a big difference when you’re working hard all day, every day, just like Super Duty.

Shields your investment. Go for the Tough Bed® factory-installed spray-in bedliner® and an industrial-grade synthetic lining will be applied with a precision high-pressure automated sprayer to help ensure a smooth, even and durable coat.

Masters challenging moments. Our AdvanceTrac® with class-exclusive RSC® (Roll Stability Control™) is the only electronic stability control system in the class that utilizes 2 gyroscopic sensors to help keep all 4 wheels firmly planted. It automatically helps avoid skidding and fishtailing, and is particularly beneficial in inclement weather.

1When properly equipped. F-350 DRW Regular Cab 4x2. 2Available feature. 3SRW models only. Engine-only traction control on DRW models. Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions.
CONQUERS THE TOUGHEST TERRAIN.

Soon you'll be conquering it too. Our class-exclusive Hill Descent Control™ included in the FX4 Off-Road Package, helps Super Duty® increase your off-road confidence by maintaining the truck's speed on steep declines, so you can concentrate on maneuvering. Transfer case and fuel tank skid plates, Rancho® shocks, and box-side decals are also included in the FX4 Off-Road Package. A durable coil-spring front suspension is part of the heavy-duty, independent Twin-I-Beam setup on 4x2s and a rugged twin-coil monobeam setup on 4x4s. XL and XLT 4x4s feature a solid front axle and manual locking hubs for excellent articulation and reliability. LARIAT, KING RANCH® and PLATINUM 4x4s include electronic shift-on-the-fly operation, giving you the ability to change your drive setting with the convenient turn of a dial on the instrument panel. To help maximize gripping power, our electronic-locking rear differential uses a true mechanical dog-clutch mechanism to lock the rear axle shafts together so they turn at the same speed.

Tracks the action. You can monitor pitch angle, bank angle and wheel direction with our class-exclusive off-road display in the LCD productivity screen.

Stops more confidently – new larger brakes. The 2013 Super Duty features a 16% increase in the rotor swept area up front and a 15% increase in the rear, helping to provide a more confident brake feel than on previous models.

®SRW models only. ©Available feature.
Inside and out, the new Super Duty® PLATINUM clearly conveys your hardworking ethics and platinum level of success. Premium leather-trimmed seats in your choice of Pecan or Charcoal Black feature a tuxedo stripe design and exclusive "PLATINUM" embroidery. Genuine walnut swirl wood accents the heated steering wheel. Voice-activated SYNC® with MyFord Touch®, an Audio System from Sony®, a Navigation System with HD Radio™ Technology, PowerScope® trailer tow mirrors and a rear view camera are all standard equipment. Outside, unique 20" cast-aluminum wheels¹ join the mesh-detailed grille, raised chrome box-side lettering and satin-chrome tailgate appliqué as PLATINUM marks of distinction.

¹SRW models only.
LARIAT ADVANCES YOUR POSITION.

Super Duty® LARIAT gets technologically enhanced for 2013 with a new instrument panel featuring voice-activated SYNC® with MyFord Touch®. The system includes an 8" LCD touch screen, the LCD productivity screen in the gauge cluster, a 110-volt power outlet on the instrument panel, a closable media hub, and SYNC Services! A rear view camera, which displays its view on the full-color 8" screen, is also standard on LARIAT this year. Dual-zone electronic automatic temperature control lets you maintain your climate-control independence from your front passenger. Premium leather-trimmed, 10-way power front bucket seats and power-adjustable pedals help drivers of all sizes feel right at home. With its proven underpinnings and up to a best-in-class 24,700-lb.² towing capacity, it’s got all the toughness you expect in a Super Duty.

¹SYNC Services varies by trim level and model year and may require a subscription. Traffic alerts and turn-by-turn directions available in select markets. Message and data rates may apply. ²When properly equipped.
XLT STANDS OUT ON THE JOB.

Super Duty® XLT definitely commands attention with its bold chrome grille and chrome bumpers. For even more shine, add the XLT Premium Package\(^1\) (shown) with its numerous chrome accents including 6" angular cab steps and 18" chrome-clad aluminum wheels.\(^2\) New for 2013, XLT standards now include the voice-activated Ford SYNC\(^\text{®}\) in-vehicle connectivity system, and power windows with one-touch-up/-down for the driver and front passenger. Every XLT also gets manually telescoping trailer tow mirrors with integrated spotters and heated glass. Inside, you’ll find a durable cloth-trimmed 40/20/40 split front seat with lockable under-seat storage in the center section for added versatility.
**PROVEN WORKHORSES. LEGENDARY BLOODLINE.**

It’s an indisputable fact. There are more F-Series trucks on the road with 250,000+ miles than any other brand. So you can rest assured every Super Duty® is built on a solid foundation – one engineered to get the job done, even under the most challenging conditions.

1 Certified to SAE J1349. 2 Certified to SAE J2522. 3 Certified to SAE J2807.
New Vehicle Limited Warranty. We want your Ford F-Series Super Duty® ownership experience to be the best it can be. Under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/60,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage – all with no deductible. The Ford 6.7L Power Stroke® diesel engine gets 5-year/100,000-mile warranty coverage. Please ask your Ford Dealer for a copy of this limited warranty.

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you’ll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.

Ford Extended Service Plan. For a purchase or lease, the Ford Extended Service Plan (ESP) gives you “Peace-of-Mind” protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for a Ford ESP, the only service contract backed exclusively by Ford and honored at all Ford dealerships.

Insurance Services. Get Ford Motor Company quality in your auto insurance. Our program offers industry-leading benefits and competitive rates. Call 1-877-367-3847, or visit us at fordvip.com for a no-obligation quote. Insurance offered by American Road Services Company (in CA, American Road Insurance Agency), a licensed agency and subsidiary of Ford Motor Company. Genuine Ford Accessories will be warranted for whichever provides you the greatest benefit: 12 months or 12,000 miles (whichever occurs first), or the remainder of your Bumper-to-Bumper 3-year/36,000-mile New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer’s warranty. FLA are fully designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Ford Dealer for details and/or a copy of all limited warranties.
