Thank you for your interest in the 2017 Ford Super Duty. This brochure features information, specifications and images that will help you learn more about this vehicle.

DURABILITY: Designed to be the toughest, hardest working, most capable heavy-duty pickup we’ve ever built, we slashed this truck’s weight with an all-new high-strength, military-grade, aluminum alloy body.

CAPABILITY: The 2017 Ford Super Duty is engineered with an all-new fully boxed high-strength steel frame, beefier suspension, chassis and driveline components — all combining with more engine torque.

POWER: Quite simply, the all-new 2017 Super Duty delivers the highest combination of horsepower and torque ever in a Ford heavy-duty pickup. And you know it's in for the long haul. It's Built Ford Tough.

PRODUCTIVITY: This is our smartest Super Duty, making life for you on the job easier and more productive with an all-new redesigned cab plus a host of newly available technologies.

Introducing an all-new F-Series Super Duty. The 2017 F-250, F-350, and the massive F-450. We set the standard in truck capability. Now we’ve raised it even higher. This tough-as-nails workhorse is loaded with material innovation and advanced technology. Rust can’t touch its all-new high-strength, military-grade, aluminum alloy body and cargo box. Its all-new, fully boxed, high-strength steel ladder frame is the strongest Super Duty pickup frame. Ever. Together, they form the foundation for

THE TOUGHEST, SMARTEST, MOST CAPABLE SUPER DUTY EVER.
It’s astounding what an F-Series Super Duty will haul over its lifetime. Cinder block. Stumps. Pipe. Tools. Machinery. Landscaping material. Generators. 5th-wheel/gooseneck trailers. So we’ve made the cargo box of the all-new 2017 Super Duty even more capable. It’s the first and only one in its class\(^1\) made from high-strength, military-grade, aluminum alloys. To handle the increased loading requirements and enhanced capability of a Super Duty workload, we re-engineered the cargo box and upgraded its panel thickness. It does not rust. It’s more dent- and ding-resistant. Simply put, it is

**THE TOUGHEST SUPER DUTY BODY EVER.**

Use of this advanced material saved weight as well, so we reinvested those savings directly into upgrading the essential components that work the hardest – the frame, axles, leaf springs, transfer case, driveline and trailer hitches. With a stronger frame, tougher body and upgraded componentry, the 2017 Super Duty tows more, hauls more, and is more capable then ever – while weighing up to 350 pounds less than before. This is the Future of Tough.

\(^1\)Class is Full-Size Pickups over 8,500 lbs. GVWR based on Ford segmentation.
Super Duty demands a foundation built for extremes. This all-new, fully boxed ladder frame – made of 95% high-strength steel – is engineered to be up to the task. With 6 times more high-strength steel than the previous generation, it’s up to 24 times stiffer – helping to produce the best ride and steering of any Super Duty ever. That’s just the kind of stability you need when you’re towing a best-in-class 32,500 lbs. of heavy-duty machinery behind you.

Through-welded, closed-section crossmembers, used on Super Duty for the first time, help increase torsional stiffness. Frame mid-rails are 1.5” taller for added stiffness. And an e-coat paint process encases all that strength for extreme durability and corrosion protection.
We tortured it. In the engine lab, on the proving grounds, and working in the real world. Our dedicated team of truck engineers ran it with maximum trailer weights. Up and down steep grades. Then up and down again. In stifling heat above 100°F. And in subzero cold. This all-new 2017 Super Duty is engineered for extremes.

Its robust new cargo box endured extensive strength and durability testing. First, with body structure engineers running it through countless hours of supercomputer simulations. Then, while driving prototype vehicles over brutal road surfaces at maximum payload limits. The cargo box and upgraded driveline took the abuse, run after run. Before the first truck rolls off the line, we’ll have logged over 12 million cumulative miles of testing – more than any of its predecessors. Trust us when we say: The 2017 Super Duty is Built Ford Tough® in every way that matters.
SO CAPABLE
IT DELIVERS ALL THIS.

FIRST-IN-CLASS
- High-strength, military-grade, aluminum alloys
- Inflatable rear-seat outboard safety belts

BEST-IN-CLASS
- 925 lb.-ft. of diesel torque
- 430 lb.-ft. of gas torque
- 32,500 lbs. max. towing capacity
- 27,500 lbs. max. 5th-wheel towing capacity
- 21,000 lbs. max. conventional towing capacity
- 7,630 lbs. max. payload capacity
- 41,800 lbs. max. Gross Combined Weight Rating (GCWR)

CLASS-EXCLUSIVE
- Up to 7 available cameras
- Adaptive steering
- Adaptive cruise control and collision warning with brake support
- BLIS® with trailer coverage and cross-traffic alert
- Customer-placed trailer camera
- LED sideview mirror spotlights
- Multicontour front seats with Active Motion
- Power-deployable running boards
- PowerScope® power-telescoping/folding trailer-tow mirrors
- Remote tailgate lock and release
- Smart Trailer Tow Connector
- Standard flat load floor inside
- Collapsible under-seat storage that folds into flat load floor
- Tailgate step
- Trailer Reverse Guidance
- Trailer Tire Pressure Monitoring System
As the market leader, Super Duty owns work. Loggers, landscapers, miners and oil field workers rely on it in extreme conditions. With the all-new Super Duty, they'll depend on the strongest 6.7L Power Stroke® V8 Turbo Diesel engine yet. New this year: twin-pilot injection for smooth acceleration; upgraded pistons, rods, crankshaft cylinder heads and gaskets. Plus, a driver-controlled engine exhaust brake with On, Off and Auto settings that allows use of engine braking to help slow the truck down and control vehicle speed. This proven diesel is paired with an equally rugged TorqShift® 6-speed automatic transmission. Both are designed, engineered and built by Ford. Together, they deliver its highest combination of horsepower and torque ever.

The numbers push, pull and speak for themselves. Larger fuel tanks – up to 48 gallons maximum – help improve your range of travel as well. The most tested Power Stroke diesel ever is also B20-capable. And right where it belongs in the 2017 Super Duty.
The Built Ford Tough® 6.2L 2-valve V8 delivers the most torque of any gas engine in the class. Designed, engineered, built and torture-tested by Ford, the standard engine on F-250 and F-350 Super Duty is also E85-capable. An enhanced long-runner intake manifold combines with revised camshaft profiles this year to increase peak torque by 25 lb.-ft. over the previous generation. With significant improvements in torque performance, the 6.2L V8 delivers better working power throughout the rpm range – for improved driveability overall, and enhanced hauling and towing performance.

Alternative fuel options include a CNG/Propane Gaseous Engine Prep Package that readies your truck to be upfit for compressed natural gas (CNG) or propane autogas. Super Duty models equipped with the 6.2L engine can be converted to a bi-fuel vehicle with the ability to switch between CNG or propane and gasoline. Providing flexibility and extended range, trucks upfit to a bi-fuel system include a tank for each type of fuel. By purchasing a Super Duty upfit for CNG or propane, you may even qualify for state incentives related to alternative fuel use, infrastructure or vehicles. Visit www.afdc.energy.gov/afdc/laws for details.

The TorqShift® 6-speed SelectShift® automatic transmission with tow/haul mode delivers smooth, efficient performance. A multi-segment clutch friction-plate design improves oil flow, reduces power loss and maximizes transmission productivity. A high-efficiency fluid filter has a fluid change interval of 150,000 miles.

**SelectShift and Progressive Range Select**
- Manual upshift and downshift capability
- Progressive range select mode lets you reduce the available gear range in difficult road/load conditions
- Tow/haul mode helps to eliminate unwanted frequent gear-shifting on steep uphill grades, while allowing engine braking to help maintain vehicle speed when descending a steep grade

**3-Plate, 2-Stage Torque Converter** handles substantial horsepower and torque forces from the 6.7L Power Stroke® V8 Turbo Diesel, and helps both engines work efficiently at low rpm thanks, in part, to low-speed lockup capability (down to 900 rpm).

**Live-Drive Power Takeoff Provision** is directly linked to the crankshaft, so the PTO output gear delivers power anytime – whether the vehicle is moving or not. With both engines, the TorqShift transmission provides stationary and mobile-mode PTO capability.

**Sinter-Brazed Pinion Carriers** help manage the diesel’s extreme low-end torque, as well as the high shift speeds of the gas engine. When teamed with a gasoline engine, the transmission features up to 4-pinion front carriers and 6-pinion rear. Diesel models feature up to 6-pinion carriers in front and up to 8-pinion carriers in the rear.

A TorqShift-G 6-speed SelectShift automatic transmission with tow/haul mode, right-sized for weight savings and efficiency, is new this year and standard on Super Duty F-250 models with the 6.2L V8. Since engines and transmissions are both designed by Ford, each powertrain works seamlessly with chassis components and vehicle calibrations.
After all, it has the best vantage point to see where the weight savings from the all-new 2017 F-Series Super Duty have been reinvested. And it is a sight to behold.

Front suspension: optimized for increased capability with new shocks, radius arms, springs, larger lower bushings and upgraded stabilizer bars with new collars. Rear suspension: upgraded and optimized with new shocks, bushings and re-engineered leaf springs for improved stance under load. Brake master cylinder on F-450: larger, for less brake fade under extreme braking conditions. Trailer hitch receivers: bigger, stronger with more weight-carrying capability. This Super Duty is ready for down and dirty.

Even the dirt will be impressed.

**Front and rear axles are stronger** and more capable. They’ve been re-engineered with new gear and bearing designs, and optimized for weight to be more efficient than their predecessors. All-new rear axles on DRW trucks have more weight-carrying and towing capability than the previous generation.

**Driveshafts, transfer cases and U-joints** were upgraded to handle the increased torque output of both Super Duty engines. An electromagnetic clutch in the new transfer case provides smooth and immediate shift-on-the-fly 4WD capability in conditions where additional traction is required.

**Standard trailer hitches** are larger with increased ratings to handle heavier loads and, on many configurations, are now weight-carrying up to the trailer hitch ratings. Hitch receiver size has also increased, and reducers are provided to cover your towing needs.
CLASS-BEST 32,500 LBS. MAX. TOWING.

Towing numbers lead the class across the board. Best-in-class max. towing: Super Duty F-450 at a whopping 32,500 lbs.¹ Best-in-class max. 5th-wheel towing: F-350 DRW at 27,500 lbs.² And best-in-class conventional towing: F-350 DRW at 21,000 lbs.³ If you need to tow more than any other truck in the class, you'll be in a Super Duty. It's optimized for heavy hauling. So you can pull the most weight¹ – confidently.

To help you handle it all, the 2017 F Series Super Duty is our smartest and most capable towing machine. Ever. Providing you with an unprecedented level of towing confidence with even the largest loads. Smart technology helps make towing easier than ever: Cameras² aid in hooking up your trailer; class-exclusive adaptive cruise control² makes handling all that weight seem almost effortless; and adaptive steering² makes parking easier at your destination.
When there’s valuable equipment in tow, what you can see makes all the difference. With up to 7 available cameras, the all-new 2017 Super Duty helps you see more than ever before — solidifying our leadership in delivering the most capable, high-tech towing technology. Introducing your ultimate towing machine.

A front 180-degree camera with washer not only helps to see ahead, but around tight corners as well. It can see to the left and right before you have a line of sight, displaying a view around corners, down alleys and out of parking spots as you slowly drive forward.

A camera in each sideview mirror, along with the front and rear cameras, generates a 360-degree view. This all-around view of Super Duty is displayed on the 8" color LCD screen in the center stack (shown top right).

A forward-facing camera is utilized by lane-keeping alert. It can detect lane markings and send vibration pulses to the steering wheel if it senses Super Duty drifting unintentionally out of its lane.

A center high-mounted stop lamp (CHMSL) camera with zoom function helps provide greater visibility of the cargo in the cargo box while in Reverse (shown middle right), and is particularly helpful when connecting a 5th-wheel/ gooseneck trailer.

A rear view camera with zoom function, mounted in the tailgate handle, provides a view of what’s behind Super Duty and helps in the hookup of conventional trailers. It is one of the cameras used by the 360 degree camera with Split-View Display.

A customer-placed trailer camera can be attached to the rear of your trailer. It shows you what’s behind the trailer when backing up, and it’s weatherproof. The image can be accessed on the 8" color LCD screen in the center stack.

A forward-facing camera is utilized by lane-keeping alert. It can detect lane markings and send vibration pulses to the steering wheel if it senses Super Duty drifting unintentionally out of its lane.

Introducing your ultimate towing machine.
After surviving countless hours of abuse at the hands of Ford engineers, this high-strength, military-grade, aluminum alloy cargo box is reporting for duty. Super Duty. Best-in-class payload sits inside these walls. In fact, max. payload numbers have increased across this F-Series lineup. And for good reason. Panel thickness of the cargo box: upgraded. Reinforcements underneath the box: fortified. Dent and ding resistance inside the box: better than steel. Susceptibility to red rust: gone.

Accessing your payload is easy, too, thanks to extended step bars that reach to the side of the cargo box, as well as our class-exclusive tailgate step in back. To help increase your confidence while hauling heavy loads, every Super Duty features AdvanceTrac with RSC (Roll Stability Control) – that now includes DRW models too. It utilizes 2 gyroscopic sensors to automatically help you avoid skidding and fishtailing, helping you keep all wheels firmly planted. Load up. Head out.

CLASS-BEST
7,630 LBS.
MAX. PAYLOAD.
Day or night, the all-new Super Duty provides the tools you need to finish any job. Class-exclusive LED sideview mirror spotlights\(^1\) can light your work site well into the night. They join quad-beam LED headlamps\(^1\) and LED taillamps\(^2\) LED box lighting\(^3\) smartly illuminates the cargo box with forward-facing lights. Turn them on with the button in the bed or the headlamps control in the cab.

Our class-exclusive tailgate step\(^4\) with grab handle is fully integrated inside the tailgate and drops down in one easy motion when needed. First-in-class remote tailgate release\(^5\) with power remote locking opens the tailgate with your key fob. Lock, unlock and lower it, hands-free. When activated, the tailgate gradually lowers to a flat position. Class-exclusive BoxLink™ with locking cleats\(^6\) helps keep your cargo in place. Load dirt bikes and ATVs with ease thanks to class-exclusive stowable loading ramps\(^7\). When finished, stow the ramps with the BoxLink system.
The 8" color LCD productivity screen in the instrument cluster of the all-new Super Duty is your new command center. Keep your most used screens front and center with MyView. Just choose your favorites (up to 7) and put them in one consolidated view for greater convenience. Unique Super Duty screens include a digital turbo gauge for the 6.7L Power Stroke® V8 Turbo Diesel engine, and a DEF gauge.

The Individual Tire Pressure Monitoring System not only notifies you if any individual tire's pressure is low, but the system tells you how low. Track towing information, such as trailer brake controller settings, vehicle pitch and steering angle, and profiles of up to 10 trailers – including accumulated miles on each. A class-exclusive Trailer Tire Pressure Monitoring System can monitor and display the individual tire pressures of a connected trailer, and warn you if any tire is low. A power distribution screen when driving off road even shows you which wheels are receiving the most power. In Super Duty, all the info you need is front and center.
You can in the all-new 2017 F-Series Super Duty, the smartest Super Duty ever. It’s loaded with driver-assist features. Sophisticated radar and strategically placed cameras. They’re at your service to help you navigate a crowded job site, avoid a collision, stay in your lane, and so much more.

Adaptive cruise control helps maintain your choice of speed and preset gaps from the vehicle in front of you. It can also alert you to a potential collision. If one is detected, adaptive cruise control and collision warning with brake support flashes a warning via a heads-up display on the windshield, sounds an alarm, and can pre-charge the brake system to provide full responsiveness when you do brake.

First-in-class adaptive steering adapts to different driving conditions and reduces the amount of steering input needed, depending on speed and load. This helps make Super Duty more manageable to drive, especially with a load in tow. Backing up, trailering, and parking lot maneuvering will all be easier than the previous generation.

Trailer sway control helps you handle all that weight when towing. The system monitors the motions of the truck to detect trailer sway and selectively brakes as needed, helping you maintain control of the truck and the trailer.

BLIS (Blind Spot Information System) with trailer coverage notifies you with a light in either sideview mirror if its radar sensors detect a vehicle in the corresponding blind spot. The system has been optimized for Super Duty to extend the range of BLIS to include a conventional trailer, once programmed into the productivity screen.

Lane-keeping alert can detect lane markings and send vibration pulses to the steering wheel if it senses Super Duty drifting unintentionally out of its lane.
Until the pavement is down on a job site, you’ve got to get your heavy equipment and tools through mud, sand and difficult terrain. Thankfully, on Super Duty 4x4 models with electronic shift-on-the-fly, engaging 4WD is as simple as setting the proven manual-locking front hubs to AUTO and turning a dial on the instrument panel. Monitor your truck’s pitch, roll, steering angle and driveline status with the off-road display in the 8" productivity screen.

To increase your confidence even more, select the FX4 Off-Road Package. Transfer case and fuel tank skid plates, Hill Descent Control™ (now available on DRW models for the first time), and off-road-tuned Rancho® shocks help get you ready for serious, low-speed crawling. An electronic-locking rear differential (SRW models) uses a true mechanical dog-clutch mechanism to lock the rear axle shafts together so they turn at the same speed for maximum gripping power. In the all-new 2017 Ford Super Duty, you’re well prepared to conquer the toughest terrain.
SADDLE UP.
RIDE LIKE A KING.

You can, in all-new cabs that are longer across the lineup – Regular Cab, SuperCab and Crew Cab. On KING RANCH® you can massage your lower back and upper leg area, and change your seat contour, with the heated and cooled, leather-trimmed 10-way power front seats equipped with Active Motion®. The driver’s seat, power-adjustable pedals, power sideview mirrors, and power-tilt and -telescoping steering column all feature memory to make life even more convenient. On the leather-wrapped center console lid, the KING RANCH Running W logo is prominently displayed.

Listen to everything you love with SiriusXM® Satellite Radio. Get over 150 channels including all kinds of commercial-free music, plus every major sport and the best talk, news, comedy and entertainment. And you’ll hear it all with a 6-month trial subscription to the All Access package, included with your new Super Duty. So you can rock your ride, plus listen anywhere online and on the SiriusXM app. All in the quietest Super Duty ever.
NOW YOU'RE TALKING.

SYNC 3

In addition to all the voice-activated benefits of SYNC®1,2 – placing and answering calls, and controlling music from your devices – you’ll love the easy-to-use interface of SYNC 3.3 A 8” color LCD screen displays phone, audio and navigation4 features. Enhanced voice recognition lets you give simple commands. A capacitive touchscreen includes a convenient swipe feature, as well as pinch-to-zoom functionality within navigation.3 SYNC 3 also brings you the options of Apple CarPlay™3 and Android Auto™4.

Voice-Activated Navigation Systemöst

Includes a 5-year complimentary trial subscription to SiriusXM® Traffic and Travel Link® services.5 Global Positioning System (GPS) technology is combined with available 3-D mapping and provides voice-guided turn-by-turn directions. You’ll get detailed traffic information, plus current and forecasted weather and fuel station locations and prices.

SYNC AppLink

Use your voice to control some of your favorite compatible mobile apps (like Pandora® and iHeartAuto), thanks to SYNC AppLink.3,6

Siri Seamless Integration

Bring the power of Siri® into Super Duty with Siri Eyes Free,7 your paired iPhone® and a long press of the voice-recognition button on the steering wheel.

Automatic Updates Over Wi-Fi

Keep SYNC 3 current with the latest software as new updates become available.8 All you need is a Wi-Fi® connection.

1 Available feature. 2 Don’t drive while distracted. Use voice-operated systems when possible; don’t use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. 3 Requires phone with compatible version of Apple iOS and active data service. SYNC does not control Apple CarPlay while in use. Apple is solely responsible for their functionality. Message and data rates may apply. 4 Requires phone with compatible version of Android Auto and active data service. SYNC does not control Android Auto while in use. Google and other third parties are responsible for their respective functionality. 5 SiriusXM audio and data services each require a subscription sold separately, or as a package, by SiriusXM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged for the then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Trial subscriptions not available in AK and HI. 6 SYNC AppLink is available on select models and compatible with select smartphone platforms and requires any compatible apps to be installed and running on a capable smartphone while connected to SYNC. Commands may vary by phone and AppLink software. Message and data rates may apply. 7 Requires SYNC 3. 8 Optional Navigation System map updates cannot be received via Wi-Fi and require a separate update.
AN OPEN AND SHUT CASE ON PRODUCTIVITY.

To keep you highly productive, smart storage is everywhere in Super Duty. Even under the rear seat. First, on Crew Cab models, deployable under-seat storage can fold into the floor when not in use for a convenient flat load floor. When needed, the deployable partition raises up for helpful storage that can be divided and locked when the seat is folded down.

Next, 2 glove compartments, including a unique upper compartment, more than double the glove box storage space of the previous generation. And the deep front center console is large enough for hanging file folders. Lastly, on SuperCab, enjoy rear doors that now open to 170° — with no B-pillars to obstruct entry and loading. Case closed.

8, aluminum heads
8, aluminum heads
Block material
Compacted graphite iron
Cast iron
Valve operation
Push rod/rocker arms
Roller-rocker shafts
Camshaft drive
Gear
Silent chain
Bore/stroke
3.90”/4.25”
4.02”/3.74”
Compression ratio
16.2:1
9.8:1
Horsepower @ rpm
440 @ 2,800
385 @ 5,750
Tongue lb.-ft. @ rpm
925 @ 1,800–2,000
385 @ 5,750
Recommended fuel
Ultra-low-sulfur diesel or B20 (containing 20% or less biodiesel)
Regular unleaded or E85; bi-fuel-capable CNG or propane autogas (requires upfit)
Transmissions
TorqShift 6-Speed SelectShift® Automatic with Tow/Haul Mode (F-250 with diesel engine and F-350/F-450)
TorqShift 6-Speed SelectShift Automatic with Tow/Haul Mode (F-250 gas engine only)
Case Material
Aluminum
Aluminum
PTO
Live-drive with stationary and mobile modes: split-shaft capability (diesel only); PTO port located on driver’s side

Brakes
Rotor diameter (front/rear) – 14.29”/14.29” (F-250/F-350); 15.39”/15.74” (F-450)
Wheels
Steel or aluminum
Size – 17”, 18” or 20” (F-250/F-350); 19.5” (F-450)
Number of studs – 8 (F-250/F-350); 10 (F-450)
Bolt-circle diameter – 8.5” (170-mm) SRW; 7.87” (225-mm) F-350 DRW; 8.6” (225-mm) F-450
Mechanical
Front Suspension
Axle (max. rating @ ground) – 5,250 lbs. (F-250/F-350 4x2); 6,000 lbs. (F-250/F-350 w/3.31 axle delete); 6,000 lbs. (F-250/F-350 4x4); 7,000 lbs. (F-350)
Shock absorbers – 1.38” gas type
Rear Suspension
Axle (max. rating @ ground) – 6,200 lbs. (F-250); 7,280 lbs. (F-350 SRW); 9,650 lbs. (F-350 DRW/F-450)
Shock absorbers – 1.38” gas type
Steering
Type – Hydraulic power-assisted with recirculating ball gear and damper
Overall ratio – Variable
Overall ratio – Variable
Up to 6 power sources4 are mounted overhead, within easy reach of front-seat occupants.
6 auxiliary upfitter switches4 are mounted overhead, within easy reach of front-seat occupants.
4Final-stage manufacturer must supply control switches. 5Always wear your safety belt and follow airbag warning label instructions. 6Certified to SAE J1349. 7Available feature.
TRIMS

**XL**
- Regular Cab cloth-trimmed interior in Dark Earth Gray with XL Value Package, 40/20/40 split front seat and available equipment.

**XLT**
- SuperCab cloth-trimmed interior in Medium Earth Gray with XLT Premium Package, 40/console/40 front bucket seats and available equipment.

**LARIAT**
- Crew Cab leather-trimmed interior in Medium Light Camel with 40/console/40 front bucket seats and available equipment.

**KING RANCH**
- Crew Cab leather-trimmed interior in Mesa Brown with 40/console/40 front bucket seats and available equipment.

**PLATINUM**
- Crew Cab leather-trimmed interior in Black with 40/console/40 front bucket seats and available equipment.

### Driver-Assist Technology

- Adaptive cruise control and collision warning with brake support¹
- BLIS® (Blind Spot Information System) with trailer coverage and cross-traffic alert
- Reverse Sensing System¹
- Windshield wipers – Rain-sensing

### Seating

- 2-way adjustable driver and right-front-passenger head restraints
- 4-way adjustable driver and right-front-passenger head restraints
- Front – Heavy-duty vinyl 40/20/40 split seat with 2-way manual seat adjust, driver’s side manual lumbar, and folding armrest with cupholders and storage
- Front – Cloth 40/20/40 split seat with 2-way manual seat adjust, driver’s side manual lumbar, and folding armrest with cupholders and storage
- Front – Heavy-duty vinyl bucket seats with mini-console and driver’s side manual lumbar (Regular Cab only)
- Front – Cloth bucket seats with mini-console and driver’s side manual lumbar
- Front – Cloth 40/20/40 split seat, center under-seat lockable storage with 12-volt powerpoint, 2-way manual seat adjust, driver’s side manual lumbar, and folding armrest with cupholders and storage
- Front – Cloth bucket seats with 8-way power driver seat, 2-way manual passenger seat, driver’s side manual lumbar, and flow-through center console with lockable storage and 2 rear-facing powerpoints (SuperCab and Crew Cab only)
- Front – Leather-trimmed 10-way power bucket seats and flow-through center console with lockable storage and 2 rear-facing powerpoints

¹Restrictions may apply. See your dealer for details. ²Requires 5th-Wheel/Gooseneck Trailer Tow Prep Package. ³Ford Licensed Accessory.

#### Notes:
- **Conventional Towing**: Maximum capabilities shown are for properly equipped vehicles with required equipment and a 150-lb. driver. Weight of additional options, equipment, passengers and cargo must be deducted from this weight. For additional information, see your Ford Dealer.
- **5th-Wheel Towing Notes**: This information also applies to models with pickup box delete option (66D). Trailer tongue load weight should be 10–15% of total loaded trailer weight. Make sure that the vehicle payload (reduced by option weight) will accommodate trailer tongue load weight and the weight of passengers and cargo added to the towing vehicle. The addition of trailer tongue load weight, and the weight of passengers and cargo, cannot cause vehicle weights to exceed the rear GAWR (Gross Axle Weight Rating) or GVWR (Gross Vehicle Weight Rating). These ratings can be found on the vehicle’s Safety Compliance Certification Label.

New Vehicle Limited Warranty. We want your Ford F-Series Super Duty® ownership experience to be the best it can be. Under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/60,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage -- all with no deductible. The Ford 6.7L Power Stroke® diesel engine gets 5-year/100,000-mile warranty coverage. Please ask your Ford Dealer for a copy of this limited warranty.

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you’ll find the choices are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.

Ford Protect Extended Service Plans. Whether you purchase or lease your Ford vehicle, insist on genuine Ford Protect extended service plans. Ford Protect has a variety of plans to give you peace-of-mind protection whether you want vehicle component or maintenance coverage. Plus, they are fully backed by Ford and honored at all Ford dealerships in the U.S., Canada and Mexico. When you visit your dealer, insist on genuine Ford Protect extended service plans.

Ford Original Accessories. They’re warranted for whichever you choose the greatest benefit: 24 months/unlimited mileage, or the remainder of your Your Bumper-to-Bumper 3-year/36,000-mile New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer’s warranty. FLA are designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Ford Dealer for details and/or a copy of all limited warranties.
