This much is certain: Ford Taurus never stops innovating. For 2013, aggressive new front and rear styling signals even higher levels of precision, inside and out. Standard new systems help keep Taurus planted in the corners and offer sharp turn assistance. Inside, the experience is equally engaging. Stay connected to your calls, music and more with both hands on the wheel. Enjoy the comfort of massaging front seats, plus a new heated steering wheel. Utilize systems that can adapt to rush-hour traffic and even help you parallel park. And choose from 3 remarkable engines: a standard new 3.5L Ti-VCT V6, a new 2.0L EcoBoost® I-4 or the exhilarating 3.5L EcoBoost V6 in SHO. The 2013 Taurus. Ahead of its time. Again.
365 hp

Enthusiastically tuned for Super High Output.

On the street, through corners, and even at the pump, the 2013 SHO is engineered to outperform. Far-reaching HID headlamps flank its racing-inspired black mesh grille. Beneath the chiseled hood, the remarkable 365-hp 3.5L EcoBoost® V6 engine combines twin turbochargers with direct-injection technology to deliver consistent stick-to-your-seat acceleration. Plus 25 mpg hwy. Together with all-wheel drive (AWD) and large vented discs all around, SHO delivers true enthusiast performance. To up the ante, the SHO Performance Package adds unique shocks and springs, performance friction brake pads, a 3.16 final drive ratio for enhanced acceleration, as well as 20” machined and painted aluminum wheels. Finally, a true “off” mode for AdvanceTrac® electronic stability control lets you do a little fine tuning of your own. No one will know but you.
Power and efficiency redefined. Again. And again. And again.

New 3.5L Ti-VCT V6
Twin independent variable camshaft timing (Ti-VCT) allows intake and exhaust valves to advance independently, providing precise valve timing control. By adding it to the 3.5L V6 engine on Taurus SE, SEL and Limited, engineers increased standard horsepower by almost 10% (to 288), the first of many benefits. Ti-VCT also helps reduce induction and exhaust compromises, allowing the engine to deliver peak horsepower and robust low-end torque while helping contribute to fuel efficiency.

3.5L EcoBoost® V6
365 hp¹ 350 lb.-ft. of torque 25 mpg hwy²
Precision engineering helps the SHO V6 achieve this remarkable level of power and efficiency. Twin turbochargers (one for each bank of cylinders) boost the air going in, increasing power for tremendous low-end torque and acceleration. High-pressure fuel injectors adjust fuel delivery during intake (up to 300 times a second), optimizing combustion in each cylinder. The numbers speak for themselves. So will your experience behind the wheel.

New 2.0L EcoBoost® I-4
If fuel efficiency tops your priorities, Taurus is the first Ford sedan to offer the new 2.0L EcoBoost I-4 engine³ – giving you up to a projected 32 mpg hwy.⁴ A 6-speed SelectShift Automatic⁵ transmission helps this state-of-the-art, turbocharged, direct-injection powerhouse deliver plenty of torque for acceleration and passing. With outstanding fuel economy while cruising, you can travel over a projected 575 highway miles without having to stop for gasoline.⁶

¹Figures achieved using premium unleaded gasoline. Premium fuel is recommended for 3.5L EcoBoost V6, but not required. ²EPA-estimated 17 city/25 hwy/20 combined mpg. ³Available feature. ⁴Projected 22 city/32 hwy/25 combined mpg. ⁵2.0L EcoBoost I-4 engine and 6-speed SelectShift automatic transmission. ⁶19-gallon tank.
Engineered for maximum adhesion.

Take its already engaging driving experience and make it even better. Taurus engineers heeded this call, adding some notable handling innovations for 2013. To help more torque reach the road to keep Taurus firmly planted, new Torque Vectoring Control applies slight braking force to the inside front wheel to allow confident acceleration through a corner. For enhanced grip through sharp turns, there’s Curve Control, which helps slow the vehicle by as much as 10 mph in about a second if it senses you’re taking a curve too quickly. Both systems are standard. Along with AdvanceTrac® electronic stability control and vented brake rotors at each wheel, Taurus brings an uncompromising level of confidence to each drive.
Pleasant at every touch.
Especially the new heated steering wheel.

With new soft-touch surfaces throughout, Taurus is crafted to soothe your senses. For starters, leather-trimmed, 10-way power front seats in Limited do more than simply caress. When equipped with 7 air cushions1 inside, they can massage your back and legs and actively adjust your seat contour—helping to keep you alert on long journeys. Add the comfort of heating and cooling1 plus a new heated steering wheel1 and you may never want to stop. Rear passengers, not to be outdone, can enjoy heated outboard seats1 as well. Crafted to world-class standards for fit and finish, and filled with the latest technological advancements, this accommodating space is designed to please everyone—whether you’re behind the wheel or gazing up through the power moonroof1.

1Available feature.
Thoughtfully designed to keep you connected.

The best technologies make life more convenient. So you’ll love how easily Taurus connects to your phone and music through voice-activated Ford SYNC.¹ There’s no need to search for your phone. No device on your ear. Once paired, the system recognizes your phone and downloads your contacts to support voice calling. It also plays music from your phone, MP3, USB or iPod. In fact, any device with Bluetooth® capability can stream audio from sources like iHeartRadio, Pandora®, internet radio and many more. Simply touch a button on the leather-wrapped steering wheel and say things like “Call: home,” or “Play playlist: Favorites.” SYNC also offers 911 Assist,¹ and with a SYNC Services account you get business searches, turn-by-turn driving directions, local movie times and more. Activate and personalize yours at ford.com/sync. SYNC. Say the word.

¹Available feature. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. SYNC Services is available on most vehicles and may require a subscription. Traffic alerts and turn-by-turn directions available in select markets. Message and data rates may apply. Not all features are compatible with all phones.
Voice activated. Amazingly capable.

Simple graphics. Fast touch-screen response. Easy-to-use controls. We’ve made the latest version of our voice-activated SYNC\textsuperscript{1} with MyFord Touch\textsuperscript{1} more amazing than ever. With it, you’ll have ultimate control over your phone, entertainment, navigation and climate. SYNC with MyFord Touch includes SYNC Services, an 8” LCD touch screen, a media hub, 2 LCD screens in the instrument cluster and familiar 5-way controls on each spoke of the steering wheel. The system recognizes over 10,000 voice commands – everything from “destination tourist attraction” to “my team’s schedule.” Display your favorite photos. Watch your just-filmed video on the 8” color screen when parked. There’s almost no limit to what you can do, all with both hands on the wheel and your eyes on the road.

MyFord Touch makes it easy to stay in touch. The system can display personal photos from your phone contact list and display them on its full-color screen when you place or receive a call, or browse your directory. To check local movie times, the day’s horoscope, stock quotes and more, just call our exclusive SYNC Services, anytime, day or night.

With the voice-activated Navigation System\textsuperscript{2} turn-by-turn directions are offered in your choice of Fastest, Shortest or Eco Route. You can even split the screen to see the route from a distance and up close. Also included with this system, a 6-month trial subscription to SiriusXM Satellite Radio, Traffic and Travel Link gives you over 130 channels of premium entertainment, plus live infotainment services including local fuel prices, local and national weather, live sports scores and more.

Allow passengers to update their status. Create a Wi-Fi® hotspot for passengers by plugging your smartphone or USB mobile broadband modem into one of the MyFord Touch USB ports. They can browse the Internet while you drive in peace. When in Park, you can also use the MyFord Touch media hub to view vacation videos or let your kids connect their favorite game console.

Tag songs for purchase later. Access your music from a USB drive, SD card, portable hard drive or almost any device you plug into the MyFord Touch media hub. With HD Radio\textsuperscript{2} Technology\textsuperscript{3} you can “tag” songs for purchase later at the iTunes\textsuperscript{®} Store. Plus, SiriusXM lets you set an “Alert” to be notified when a song or artist you like is going to be played again.

See who wants to connect. Split screens for easier navigation. Tag songs for purchase later.

\textsuperscript{1}Available feature. Driving while distracted can result in loss of vehicle control. Only use SYNC/MyFord Touch/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. SYNC Services is available on most vehicles and may require a subscription. Traffic alerts and turn-by-turn directions available in select markets. Message and data rates may apply. Not all features are compatible with all phones. \textsuperscript{2}Available feature.

\textsuperscript{3}HD Radio Technology and “HD Radio ready” are registered trademarks of iBiquity Digital Corp.

Maintains your chosen gap.¹

By maintaining a preset gap from the vehicle in front of you, adaptive cruise control and collision warning with brake support ² help alleviate concerns about rush-hour traffic. And, if a potential collision is detected, the system flashes a warning across your windshield, sounds an alarm, pre-charges the brakes and increases brake-assist sensitivity for full responsiveness when you do brake.

Steers itself into parking spots. Drives stress away.

Talk about stress reduction. First, simply press a button and active park assist ² alerts you when it has located an appropriate parallel parking spot. Then, take your hands off the wheel and your Taurus literally steers itself into place. All you have to do is follow system prompts to shift gears and control the brake and accelerator pedals. In practically no time at all, you’ll be parked and ready for action.

Alerts you to vehicles you may not see.

Change lanes and back up confidently with BLIS® (Blind Spot Information System) with cross-traffic alert. ² When traffic is detected in your blind spots, it is designed to alert you with a light in your sideview mirror. ³ If a vehicle is detected approaching from either side as you’re slowly backing out, it is designed to alert you with a sound, a message center warning and the light – giving you time to stop.

¹Distances shown based on a speed of 60 mph. ²Available feature. ³BLIS replaces standard integrated blind spot mirrors.
Masters the elements.

Of safety, of course. Underneath its aggressively styled shape, a masterful combination of high-strength and ultra-high-strength boron steel forms an intricate safety cage around the passenger compartment of the 2013 Taurus. Its Trinity front-crash structure and SPACE (Side Protection And Cabin Enhancement) Architecture join innovations like AdvanceTrac™ electronic stability control, as well as enhanced airbags with tethering and venting to tailor deployment force to occupant size, position and safety belt status. Auto high beams activate themselves to help improve visibility when no automotive headlamps or taillamps are detected in front of Taurus. If lights are sensed, the system returns to the low-beam setting to help reduce glare for vehicles in front of you. No wonder Taurus has earned “Top Safety Pick” – the highest possible rating from the Insurance Institute for Highway Safety (IIHS) – 5 years in a row (2008–2012).
So many advancements. Your turn to choose.

In addition to smart standards that make your life easier, a long list of available features allows you to create a Taurus that fits your specific needs. Warm things up with heated front seats and a new heated steering wheel, or cool it down with cooled front seats and a rear-window power sunshade. Make sure you know what’s behind you when backing up with the help of a rear view camera. Pump up your audio with an amazing sound system, and brighten your environment with a power moonroof. Whatever you choose, you’ll be creating the Taurus you want, just the way you want it.

Heated and cooled front seats¹ and heated steering wheel¹
Rear-window power sunshade¹
Rear view camera¹
Audio System from Sony® with 12 speakers and 390 watts of continuous power¹
Power moonroof¹

1Ford Licensed Accessory.
Taurus Standard Features

Mechanical
- 4-wheel disc Anti-Lock Brake System (ABS)
- Battery Management System
- Brake- and engine-actuated traction control
- Electric power-assisted steering (EPAS)
- Suspension – Front: Independent MacPherson strut
- Suspension – Rear: Independent multilink
- Torque Vectoring Control

Seating
- Front bucket seats
- 10-way adjustable front seat back with fold-down center armrest

Interior
- 12-volt powerpoints (2)
- Accessory Drive for power features
- Adjustable rear vents
- Auxiliary audio input jack
- Drive and front passenger seat back map pockets
- Front and rear carpeted floor mats
- Front center console with armrest and storage
- Front overhead console with dome and map lights
- Power door locks
- Rear-seat reading lights
- Tailgates with trim to match body color
- Steering wheel-mounted cruise, audio and 5-way MyFord® controls
- Tilt/telescoping steering column

Exterior
- EasyFuel® capless fuel filler
- Light-emitting diode (LED) taillamps
- Rear-window defroster
- Solar-tinted glass

Safety & Security
- Personal Safety System™ for driver and front passenger includes dual-stage front airbags, front safety belt pretensioners, safety belt energy-management retractors, safety belt usage sensors, driver’s seat position sensor, crash severity sensor, restraint control module and Front-Passenger Sensing System
- Front-seat side airbags
- Safety Canopy® System with side-curtain airbags and rollover sensor
- 3-point safety belts for all seating positions
- Advanced™ electronics’ Stability control and Curve Control
- Battery saver
- Belt-Minder® front safety belt reminder
- Child-safety rear door locks
- Illuminated Entry System
- 2-stage power liftgate (EasyLift™)
- IntraLock™ Ignition Keypad
- SecuriLock® Passive Anti-Theft System
- Side-retraction door beams

Available Ford Custom Accessories

Visit accessories.ford.com to shop the complete collection.
New Vehicle Limited Warranty. We want your Ford Taurus ownership experience to be the best it can be. Under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/60,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage—all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty.

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.

Ford Extended Service Plan. For a purchase or lease, the Ford Extended Service Plan (ESP) gives you “Peace-of-Mind” protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for a Ford ESP, the only service contract backed exclusively by Ford and honored at all Ford Lincoln dealerships.

Insurance Services. Get Ford Motor Company quality in your auto insurance. Our program offers industry-leading benefits and competitive rates. Call 1-877-367-3847, or visit us at fordvip.com for a no-obligation quote. Insurance offered by American Road Services Company (in CA, American Road Insurance Agency), a licensed agency and subsidiary of Ford Motor Company. Genuine Ford Accessories will be warranted for whichever provides you the greatest benefit: 12 months or 12,000 miles (whichever occurs first), or the remainder of your Bumper-to-Bumper 3-year/36,000-mile New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer’s warranty. FLA are fully designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Ford Dealer for details and for a copy of all limited warranties.
